1. The current power of two becomes 1. 2. The sum becomes 0. 3. Consider the bits in 110 starting with the 0 on the right. 4. The next bit is 0. 5. The bit is not 1, so the sum does not change (remains at 0). 6. The current power of two becomes 2. 7. There are more bits to process, so go back to step 4. 4.

Chapter 1 Introduction to JavaCC

Chapter 1. Introduction This report is written primarily for  
those who will provide case management for children with  
EBLLs and for health department personnel who oversee  
case management follow-up. Because there is unavoidable  
overlap among chapters, interested professionals may gain  
insight from chapters covering areas outside their own  
expertise.
