Almost Impossible-to-Solve Christmas Brain Teasers ...

The required number is 236 and the sum is 11. It is given that the first two digits of the required number are prime numbers i.e. 2, 3, 5 or 7. Note that 1 is neither

prime nor composite. Also, the third digit is the multiplication of the first two digits. Thus, first two digits must be either 2 or 3 i.e. *101 Brain Teasers (with Answers)-Hard and Easy Brain Teasers*
Answer: Shown above are three possible solutions. In each, the box marked 1 is a perfect square for one twin, and the two sections marked 2 combine to make a square of the same

size for the second...
