Advanced Nursing Practice addresses the key issues in practice, education, regulation, research and role/practice development, which are central to defining the distinctive nature of advanced nursing practice (ANP) and explores international developments in the field of ANP. Advanced Nursing Practice has been developed in recognition of the key role nurses with advanced knowledge and skills play in developing health care services worldwide. The book tracks the evolution of new advanced practice nursing roles and innovative practice models, and examines the need for international guidelines. In exploring strategies for implementing ANP in the context of countries' health care needs, Advanced Nursing Practice addresses legal and ethical challenges and commonalities and differences in advanced nursing practice, while examining the implications, obstacles, and facilitative strategies in maintaining, implementing and supporting the development of ANP. This book provides guidance in decision-making, examines the implications for liaising with other health care professionals and encourages nurses to shape their role to the needs of their patients and practice.

Competencies for Advanced Nursing Practice is the first and definitive book to deliver guidance for practitioners working to be recognized for their advanced nursing practice. Written by experienced academics and advanced nurse practitioners from a variety of clinical backgrounds, this handbook will support nurses on their journey towards advanced nursing practice and provide detailed information on achieving the competencies within each of the seven domains outlined in the RCN and the NMC's proposed Standards of Proficiency for Advanced Nurse Practitioners: the nurse-patient relationship; respecting culture and diversity; management of patient health/illness status; the education function; professional role; managing and negotiating health care delivery systems; and monitoring and ensuring the quality of health care practice. The text concludes with a section on how practice can be recorded and used in the portfolioing and accreditation process, how to collect and record evidence and how nurses can be supported and facilitated through this process. Aimed at the professional nurse working towards an advanced level of practice, the nurse already practising at this level and seeking accreditation and also the student and newly qualified nurse giving early consideration to their future career, this book offers clear and user-friendly guidance for anybody wishing to undertake this standard of nursing practice.
