compilation of stories from more than 40 diverse nurse leaders, innovators, and entrepreneurs portrays the winding and demanding paths that every nurse has braved in order to improve themselves, their patients' care, and the healthcare of today. These Rebel Nurses push the boundaries of their profession by demanding a seat at the table of healthcare innovation, lobbying on Capitol Hill, expanding their horizons to fix the broken healthcare systems around the world, and valuing the humanity of the inevitable moments of life's end. The inspiring innovation and entrepreneurship of these nurse leaders range from the incorporation of informatics or design communities and the implementation of artificial intelligence, to the creation of New York's Silicon Valley or nationwide adolescent programs that focus on school shootings—consistently disrupting the status quo through implementing life-changing procedures and policies. Readers will be inspired to transform today's era of healthcare by improving communities, implementing proactive care, and enhancing the environment of health and healing through research and policy application. Key Features Develop a personalized plan for success by using the Motivational Introductions, Rebel Nurse's Progress Notes, Thought-Provoking Questions, and Online Resources Helps nurses at all career levels embrace and develop leadership potential to effect change in healthcare Appendix includes a list of dynamic resources authored by SONSIEL members for further insight and professional development SONSIEL is recognized as an Associate Member of The Conference of Non-Governmental Organizations (CoNGO) to the United Nations

When Tom Barclay returns to the Industrial West Riding of Yorkshire, England shortly after the end of World War II he finds his relationship with his daughter drastically affected. He's served five and a half years abroad in the Army. She was eight when he left and fourteen when he returned. Jonquil Barclay chooses a nursing career against her father's wishes and enters Preliminary Training School at the local Royal Infirmary in November 1949. Strict imposed and self-discipline is required from day one. Serious illness, death, drudgery, extreme emotions and the traumas of patients and their families become daily life. As do the rewards of working as a team, the joys of seeing patients

recover and sheer job satisfaction. Four young nurses rooming together become firm friends. They have fun bending the Infirmary rules and find relief from their tensions in sharing experiences. Young love intrudes in more ways than one and a surprising Infirmary intrigue develops. Christmas 1949 shows a rare, happy atmosphere for patients and staff alike. The joy of getting through her PTS exams at the end of three hard months is more than Joni ever hoped for.

As an intelligent woman, you are probably used to learning as much as you can before making major decisions. But when it comes to one of the most important decisions of your life--how you will give birth--it is hard to gather

accurate, unbiased information. Surprisingly, much of the research does not support common medical opinion and practice. Birth activist Henci Goer gives clear, concise information based on the latest medical studies. The Thinking Woman's Guide to a Better Birth helps you compare and contrast your various options and shows you how to avoid unnecessary procedures, drugs, restrictions, and tests. The book covers: Cesareans Breech babies Inducing labor Electronic Fetal Monitoring Rupturing Membranes Coping with slow labor Pain medication Epistiotomy Vaginal birth after a Ceasarean Doulas Deciding on a doctor or midwife Choosing where to have your baby and much more . . .

Researching the Early Years Continuum Routledge

This book maps out a new paradigm of teacher education an, by implication, professional education

generally. The book opens with two alternative theories of teacher education and training and explains the concepts and assumptions on which they rest including beliefs about the nature and role of education in society. It then proposes a 'natural science' paradigm and its implications for establishing a coherent view of teacher education. Subsequent chapters indicate the professional implications of such a model.
