## **An Interactive Text for Diagnostic Reasoning F**

**A Davis Company**

Here ' s the most complete and easy-to-use resource on how to develop practical, individualized plans of care for psychiatric and mental health patients. It ' s the perfect quick reference now for clinical rotations...and later for practicing nurses. This Pocket Guide is really two books in one! The first half provides the diagnostic information needed to create a care plan; the second half covers the safe

---

prescription and administration of psychotropic medications. And, the concepts can be applied in a variety of healthcare settings...from in-patient hospitalization through the outpatient clinic...to home health and private practice.

Application Of Nursing Process and Nursing Diagnosis F.A. Davis

This handy guide provides the crucial coverage you need to quickly recall the signs, symptoms, and treatments of common fluid, electrolyte, and acid-base imbalances. Its simple and direct approach makes an often challenging subject easier to understand and its easy-to-use format make it the perfect reference for any setting.

LEARN-APPLY-ASSESS

Davis Advantage for Basic

Nursing takes an all-new approach to RN Fundamentals education by offering a unique focus on the Learn-Apply-Assess continuum. This complete solution integrates an innovative textbook with online adaptive technology to make learning personal.

Together, they create a seamless experience that tracks each student's progress and assesses their knowledge until they have mastered the concepts and are ready to apply them in class, clinical, and practice. A special code in the front of the book unlocks online Personalized Learning Plans and Quizzing for students and an interactive ebook version of the text.

LEARN The Textbook Basic Nursing: Thinking, Doing, and Caring, 2nd Edition This

---

student-focused text teaches students to "Think Like a Nurse" from the very first day, connecting the concepts students are learning in class to the real world in which they will practice. A consistent and concise organization along with a wealth of pedagogical features promote critical thinking and clinical decision making by emphasizing the Thinking, Doing, and Caring at the heart of professional practice they will do as nurses. In every chapter, they'll first explore the theoretical knowledge behind the concepts, principles, and rationales. Then, they'll study the practical knowledge involved in the processes; and finally, learn the skills and procedures. APPLY Online Personalized Learning Plans Personalized learning plans offer multiple paths to learning success. Students are assessed on their comprehension of key topics and then are given a plan to work through based on their strengths and weaknesses.

Interactive case studies, video animations and dynamic activities engage students and bring the concepts to life to help drive mastery. [Click here to read the white paper.](#) ASSESS Online Personalized Quizzing Davis Edge's online quizzing platform uses NCLEX(R)-style questions for assessment and remediation. Its interactive, question-based format provides the practice students need to master course content and improve their scores on classroom exams through a series of personalized quizzes based on each student's performance. [Click here for a preview of the text and the resources available when you purchase this book.](#) Davis's Guide to Clinical Nursing Skills F.A. Davis Put this handy guide to work in class, in clinical, and in practice. From screening and assessment tools and differential diagnosis through the most commonly ordered drugs and billing and coding, this volume in the Davis Notes Series presents the

Clive Cussler 's New York Times bestselling Blue Gold, now available in ebook, is a heart-pounding thriller in the NUMA adventure series. Kurt Austin navigates the Amazon jungle in search of a legend that could change the path of science—but secretive powers will do anything to stop him. From deep within

---

the Venezuelan rain forest emanates the legend of a white goddess and a mysterious tribe with startling technical accomplishments. Few believe the tribe exists—and even fewer suspect its deity may hold knowledge that can change the course of history. For National Underwater & Marine Agency crew leader Kurt Austin, an investigation into the sudden deaths of rare whales leads him to the Mexican coast, where someone tries to put him and his mini-sub permanently out of commission. Meanwhile, in South America's lush hills, a specially assigned NUMA crew turns up the white-goddess legend—and a murderous cadre of bio-pirates intent on stealing medicinal secrets worth millions. Soon Austin and his crew realize they're working the opposite ends of the same grand scheme. A billionaire California tycoon is poised to rise to power by monopolizing the earth's vastly depleted freshwater reserves and ultimately dominate the world. Austin has a hunch Venezuela's mythical tribal goddess has some

real roots in science, and may be the key to locating a secret formula that could turn vast amounts of seawater into fresh. But with each step into the bush, he and his NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder. Fluid and Electrolyte Notes F.A. Davis

The only book featuring nursing care plans for all core clinical areas, Swearingen's All-In-One Nursing Care Planning Resource, 4th Edition provides 100 care plans with the nursing diagnoses and interventions you need to know to care for patients in all settings. It includes care plans for medical-surgical, maternity/OB, pediatrics, and psychiatric-mental health, so you can use just one book throughout your entire nursing curriculum. This edition includes a new care plan addressing normal labor and birth, a new full-color design, new QSEN safety icons, new quick-reference color tabs, and updates reflecting the latest NANDA-I nursing diagnoses and

---

collaborative problems. Edited by nursing expert Pamela L. Swearingen, this book is known for its clear approach, easy-to-use format, and straightforward rationales. NANDA-I nursing diagnoses are incorporated throughout the text to keep you current with NANDA-I terminology and the latest diagnoses. Color-coded sections for medical-surgical, maternity, pediatric, and psychiatric-mental health nursing care plans make it easier to find information quickly. A consistent format for each care plan allows faster lookup of topics, with headings for Overview/Pathophysiology, Health Care Setting, Assessment, Diagnostic Tests, Nursing Diagnoses, Desired Outcomes, Interventions with Rationales, and Patient-Family Teaching and Discharge Planning. Prioritized nursing diagnoses are listed in order of importance and physiologic patient needs. A two-column format for nursing assessments/interventions and rationales makes it easier to scan information. Detailed rationales for each nursing intervention help you to apply concepts to specific patient situations in clinical practice. Outcome criteria with specific timelines help you to set realistic goals for nursing outcomes and provide quality, cost-effective care. **NEW!** Care plan for normal labor and birth addresses nursing care for the client experiencing normal labor and delivery. **UPDATED** content is written by practicing clinicians and covers the latest clinical developments, new pharmacologic treatments, patient safety considerations, and evidence-based practice guidelines. **NEW** full-color design makes the text more user friendly, and includes **NEW** color-coded tabs and improved cross-referencing and navigation aids for faster lookup of information. **NEW!** Leaf icon highlights coverage of complementary and alternative therapies including information on over-the-counter herbal and other therapies and how these can interact with conventional medications.

A list of implications for physical therapy at the end of each monograph helps you provide the best possible care for

---

your patients. It ' s the perfect companion to Pharmacology in Rehabilitation, 4th Edition!  
**All-in-One Care Planning Resource** Lippincott Williams & Wilkins  
You can rely on this complete reference to identify interventions commonly associated with specific nursing diagnoses across the client's life span, and to help plan, individualize, and document client care. Using the standard nursing language of NANDA, NIC, and NOC, this manual's listing of diagnoses follows NANDA's own sequencing - alphabetized by key term; prioritizes interventions; and covers almost 900 disorders and health conditions with associated diagnoses. It covers: the newest diagnoses by NANDA; more diagnoses and almost 100

disorders and conditions; all diagnosis listings follow NANDA's own sequencing; outcomes that include Client Will (Include Specific Time Frame) statements in Nursing documentation focus provided at the end of every diagnosis; Spotlights Concept Mapping for creating and documenting care to enhance critical thinking skills when planning client care; and, interventions that are prioritized, with helpful icons indicating specialized interventions. It features a free Pocket Minder with a complete listing of nursing diagnoses, with page references to the book.
