A novel from the NUMA Files F.A. Davis
Mirrors the way you work clinically - by
body system. This book provides diagnostic
and treatment algorithms; supplies
equations and formulas; offers data for
commonly used drugs; and, describes major
radiological procedures, including their
indications, normal and abnormal findings,
implications, and contraindications.

Nurses's pocket guide Simon and Schuster
Clive Cussler’s New York Times
bestselling *Blue Gold*, now available in
ebook, is a heart-pounding thriller in the
NUMA adventure series. Kurt Austin
navigates the Amazon jungle in search of a
legend that could change the path of
science—but secretive powers will do
anything to stop him. From deep within the
Venezuelan rain forest emanates the legend

of a white goddess and a mysterious tribe
with startling technical accomplishments.
Few believe the tribe exists—and even fewer
suspect its deity may hold knowledge that
can change the course of history. For
National Underwater & Marine Agency
crew leader Kurt Austin, an investigation
into the sudden deaths of rare whales leads
him to the Mexican coast, where someone
tries to put him and his mini-sub
permanently out of commission.
Meanwhile, in South America’s lush hills,
a specially assigned NUMA crew turns up
the white-goddess legend—and a
murderous cadre of bio-pirates intent on
stealing medicinal secrets worth millions.
Soon Austin and his crew realize they’re
working the opposite ends of the same
grand scheme. A billionaire California
tycoon is poised to rise to power by
monopolizing the earth’s vastly depleted
freshwater reserves and ultimately dominate
the world. Austin has a hunch
Venezuela’s mythical tribal goddess has
some real roots in science, and may be the
key to locating a secret formula that could
turn vast amounts of seawater into fresh.
But with each step into the bush, he and his

NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder.

LEARN The Textbook Basic Nursing:

Thinking, Doing, and Caring, 2nd Edition

This student-focused text teaches students to "Think Like a Nurse" from the very first day, connecting the concepts students are learning in class to the real world in which they will practice. A consistent and concise organization along with a wealth of pedagogical features promote critical thinking and clinical decision

making by emphasizing the Thinking, Doing, and Caring at the heart of professional practice they will do as nurses. In every chapter, they'll first explore the theoretical knowledge behind the concepts, principles, and rationales. Then, they'll study the practical knowledge involved in the processes; and finally, learn the skills and procedures. APPLY Online Personalized Learning Plans Personalized learning plans offer multiple paths to learning success. Students are assessed on their comprehension of key topics and then are given a plan to work through based on their strengths and weaknesses. Interactive case studies, video animations and dynamic activities engage students and bring the concepts to life to help drive mastery. Click here to read the white paper. ASSESS Online Personalized Quizzing Davis Edge's online quizzing platform uses NCLEX(R)-style questions for assessment and remediation.
