The Boxer CreateSpace

An easy-to-use guide to nearly 1,000 information sources on sports, exercise, and fitness.

[Training for Obstacle Course Racing](#) Optimal Guide to Your Best PhysiqueRaw Truth Behind Nutrition & Training

Fitness trainer to a host of busy people including actors, TV presenters and politicians, Jon Denoris has created a series of exercises and routines, most of which can be carried out almost anywhere: in the home, at work or outdoors. Hardly any of them require any equipment. Dumbbells and a medicine ball will come in useful for a few of the exercises, and also a stability ball, but that is all. So the exercises can even be done on holiday and can be adapted to work with stand-in equipment. Hence the title The Pop-up Gym: a fitness programme you can take with you wherever you go. An easy-to-use, stylish package for people who want to be fit with the minimum of fuss. Suitable for readers who don't have time to go to a gym, don't want to spend a lot of money on equipment and have limited time.

Abstract: This text provides details on the techniques and methods for gathering data on the anthropological aspects of nutrition. Information on the collection of nutritional data on the personal, family and community levels is discussed. Regional overviews of nutritional anthropology topics for specific areas of the world are provided. Extensive bibliographies and other resources are included.

[A Guide to Selection, Care, Nutrition, Training, Health, Breeding, Sports and Play](#) Createspace Independent Publishing Platform

The first work to draw on Nelson A. Rockefeller's newly available personal papers as well as research in Latin American archives, Missionary Capitalist details Rockefeller's efforts to promote economic development in Latin America, particularly Venezuela, from the late 1930s through the 1950s.

Rockefeller's involvement in the region began in 1936 with his investment in Creole Petroleum, the Venezuelan subsidiary of Standard Oil. Almost immediately, he began trying to influence North Americans' individual, corporate, and government relationships with Latin Americans. Through his work developing technical assistance programs for the Roosevelt administration during World War II, his business ventures (primarily agricultural production and food retailing), and his postwar founding of the nonprofit American International Association, Rockefeller hoped to demonstrate how U.S. capitalists could nurture entrepreneurial spirit and work successfully with government agencies in Latin America to encourage economic development and improve U.S.-Latin American relations. Ultimately, however, he overestimated the ability of the United States, through public or private endeavors, to promote Latin American economic, political, and social change. This objective account paints a portrait of Rockefeller not as the rapacious, exploitative figure of stereotype, but as a man fueled by idealism and humanitarian concern as well as ambition.
