“Making Connections” NYSED Lab

Students complete both Making Connections (a New York State required lab) and a human thermoregulation laboratory, both of which focus on skills of experimental design. Humans are complex organisms that maintain a narrow set of internal conditions through a system of feedback and communication mechanisms between multiple organ systems. Regents Review 2018 - Sessions & Topics Science

would predict, and sometimes we may have a hard time explaining the connections. Nevertheless, that is how science makes progress. In this part of the laboratory activity, you will make a few observations about yourself and your classmates; then you will look for patterns or connections. Safety Safety is important during any laboratory activity.
