---

York High School Mathematics Series. This series offers complete coverage of New York's Mathematics standards, strands, and performance indicators. As students learn to integrate a comprehensive array of tools and strategies, they become proficient in mastering concepts and skills, solving problems, and communicating mathematically. This series of books helps your students identify and justify mathematical relationships; acquire and demonstrate mathematical reasoning ability when solving problems; use visualization and spatial reasoning to analyze

characteristics and properties of geometric shapes; and succeed on the Regents Examinations.

McDougal Littell  
New York Algebra 2 with  
Trigonometry is the third of  
three books in Glencoe's  
New York High School  
Mathematics Series. This  
series offers complete  
coverage of New York's  
Mathematics standards,  
strands, and performance  
indicators. As students learn  
to integrate a comprehensive  
array of tools and strategies,  
they become proficient in  
mastering concepts and  
skills, solving problems, and  
communicating  
mathematically. This series

of books helps your students  
identify and justify  
mathematical relationships;  
acquire and demonstrate  
mathematical reasoning  
ability when solving  
problems; use visualization  
and spatial reasoning to  
analyze characteristics and  
properties of geometric  
shapes; and succeed on the  
Regents Examinations.

### **Algebra II Course Workbook**

Glencoe/McGraw-Hill

When students have only 4  
to 6 weeks to review for the  
Regents exams, they cannot

benefit from the lengthy  
review books and  
overwhelming information  
from the websites. Our  
students need one review  
book that should be concise  
and efficient to help them  
succeed with high scores on  
the test."Different books,  
different results." This book  
reviews all the important  
math topics and uses real  
Regents questions and shows  
all the necessary steps to  
solve these problems. Its  
clear format is like no other.

To help students with a comprehensive textbook custom designed for complete coverage of the New York State Core Curriculum for Algebra 2 and Trigonometry.

Algebra 2 Henry Gu

"Less is more." When students have only six to eight weeks to review for the Regents exam and they have to remember so many topics, what can the teacher offer to help? They won't be able to review the 800 page textbooks or even the 400 page review books. Our students need an efficient review kit that is concise, yet contains all the important mathematical concepts and

their applications. This book will help students remember all the key topics and build their problem solving skills through the use of examples. This review book is geared towards helping students succeed with high scores on the Regents exams. I have already used these review sheets with my own Regents classes and I have seen firsthand that their performance is significantly higher than the statewide average. Both teachers and students like these review sheets because they are practical. This book contains three courses in one: Integrated

Algebra 1, Geometry, and Algebra 2/Trigonometry. It also serves as a handy reference guide for math teachers and college students.

**Algebra 2 and Trigonometry**

Simon and Schuster  
Answer Key for Past New York State Regents Exams in Integrated Algebra 2/Trigonometry.

Algebra 2 and Trigonometry

Expand on the concepts of Algebra I and Geometry with this two course book! The NOW 2 KNOW Algebra 2 & Trigonometry text provides clear explanation, useful summaries, and

---

advanced topics. Over 200 problems with worked out solutions provide plenty of practice and guidance. Inside this book: - Algebra I Review - Complex Numbers, Logarithms, Exponentials - Graphing Lines, Circles, Parabolas, Ellipses, & Hyperbolas - Translations, Rotations, Reflections - Trigonometric Functions & Identities - Hyperbolic Trigonometric Functions & Identities
