Occupational Outlook
Handbook 2010-11
Cengage Learning
Access to oral health care is essential to promoting and maintaining overall health and well-being, yet only half of the population visits a dentist each year. Poor and minority children are less likely to have access to oral health care than are their nonpoor and nonminority peers. Older adults, people who live in rural areas, and disabled individuals, uniformly confront access barriers, regardless of their financial resources. The consequences of these disparities in access to oral health care can lead to a number of conditions including malnutrition, childhood speech problems, infections, diabetes, heart disease, and premature births. Improving Access to Oral Health Care for Vulnerable and Underserved Populations examines the

scope and consequences of inadequate access to oral health services in the United States and recommends ways to combat the economic, structural, geographic, and cultural factors that prevent access to regular, quality care. The report suggests changing funding and reimbursement for dental care; expanding the oral health work force by training doctors, nurses, and other nondental professionals to recognize risk for oral diseases; and revamping regulatory, educational, and administrative practices. It also recommends changes to incorporate oral health care into overall health care. These recommendations support the creation of a diverse workforce that is competent, compensated, and authorized to serve vulnerable and underserved populations across the life cycle. The

recommendations provided in Improving Access to Oral Health Care for Vulnerable and Underserved Populations will help direct the efforts of federal, state, and local government agencies; policy makers; health professionals in all fields; private and public health organizations; licensing and accreditation bodies; educational institutions; health care researchers; and philanthropic and advocacy organizations.

The community and technical college mission requires offering relevant Career and Technical Education (CTE) programs. Board policies are plentiful for creating new programs in alignment with workforce needs. However, few districts have robust policies in place to appropriately discontinue or replace CTE programs. This book identifies successful CTE program discontinuance including how people feel about the process and the impact of institutional culture. The interviews and policy analysis conducted provide best practices to effectively and appropriately discontinue CTE programs.

Eleven practical recommendations are outlined to help community and technical colleges in establishing program discontinuance processes which strategically and effectively discontinue CTE programs while making optimal use of limited fiscal and human resources. This book provides readers with information on career and technical education, appropriate strategies to manage the constant churning of CTE programs, college governance, and academic discontinuance policies.

Bulletin 2800 ABDO

Being a teen or tween isn't easy for anyone but it can be especially tough for Asperkids. Jennifer O'Toole knows; she was one! This book is a top secret guide to all of the hidden social rules in life that often seem strange and confusing to young people with Asperger syndrome. The Asperkid's (Secret) Book of Social Rules offers witty and wise insights into baffling social codes such as making and keeping friends, blending in versus standing out from the crowd, and common conversation pitfalls. Chock full of illustrations, logical

explanations, and comic strip practice sessions, this is the handbook that every adult Aspie wishes they'd had growing up. Ideal for all 10-17 year olds with Asperger syndrome, this book provides inside information on over thirty social rules in bite-sized chunks that older children will enjoy, understand, and most importantly use daily to navigate the mysterious world around them.

Policy and Politics for Nurses and Other Healthcare

Professionals: Advocacy and Action provides a nursing focus within an interdisciplinary approach, which intertwines to create an understanding of economics, politics, and policy in relation to health care.

Contributors to this text offer future nurses and healthcare providers keen insight about clinical practice and its derivation from regulation, laws, and policies that have roots in public policy and politics. This innovative text also offers practical knowledge on how

healthcare professionals can get involved and be proactive in the policy that directly affects their profession and patients. Key pedagogical features include chapter objectives, summaries, examples, boxed articles, case studies, review questions, key terms, photographs, and a tool kit that includes a "skills" section.

The Asperkid's (Secret) Book of Social Rules I5 Press

Examines the life of Jimmy Wales and Larry Sanger and the company they founded, Wikipedia.

Occupational Outlook

Handbook, 2020-2021 ABDO

This title examines the positions of artist, dancer, photographer, and curator. The duties and responsibilities of the professional in each of these occupations are examined.

Through profiles of artist Dane Picard, dancer Elaine Wang, photographer Heather Cantrell, and curator Julie Joyce, readers will get the sense of an artist's life. Readers will learn about daily life in the arts, average salaries, and educational

requirements and steps to securing one of these positions. Readers will learn what characteristics and interests make for a successful career in the arts, and a short self-evaluation analyses the prospective artist's potential for success in the field. Also included are evaluations of each profession's potential market, and how to find work. Inside the Industry is a series in Essential Library, an imprint of ABDO Publishing Company.
