Longman 21st Century Science is the nation's favourite course for OCR's new 21st Century Science GCSE specifications. Fully differentiated for GCSE and GCSE Additional Science, it is written by a team of teachers and examiners who really understand how science is taught in the classroom.

GCSE Additional Science OCR 21st Century Revision Guide - Higher (with Online Edition) Collins Educational

Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race to build the

biggest and the best began with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Imperator, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania surviving two world wars before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade.

Ocr 21st Century Gcse Additional Science

This guide covers all the exam-assessed content on the OCR 21st century science specification. It is designed to help students get the most out of their revision. Information is broken down into manageable chunks and higher tier material is clearly differentiated on the page.

New Grade 9-1 GCSE Combined Science: OCR 21st Century Exam Practice Workbook - Higher

This book aims to cover all the GCSE Physics material needed to meet the specifications of the examining boards Edexcel, AQA, WJEC and OCR (both 21st Century Science and Gateway) both for single and double awards. The content also covers the additional topics necessary for the Physics GCSE single award. It is the third book in the series following ' Biology at a Glance ' and ' Chemistry at a Glance ' and it encourages learners to use a mind mapping approach to revision. Just like the other books in the series, each page contains clear annotated illustrations that will help the reader to assimilate the facts quickly and commit them to memory. The book covers force and energy, energy and its transfer (including waves, electrical and thermal energy), electromagnetism and radioactivity. It goes on to describe a wide range of the practical applications of physics and concludes with material on our place in the universe. To comply with the latest GCSE specifications, ' How Science Works ' permeates all aspects of the book which also provides questions on all the topics covered, to reinforce skills and understanding.
