Forces and Motion HarperCollins Publishers

This book presents an international perspective of the influence of cultural issues on STEM reform. Effective STEM education is of considerable importance internationally because there is increase pressure by governments to produce technically skilled people from the compulsory education sectors; people capable of participating actively in the so-called ' knowledge economy ' or knowledge society. An important and distinguishing feature of the book is that it draws upon the empirical experiences and research

of the local experts from an extremely diverse cohort across the world. Contributors are: Nayif Awad, David Barlex, Alexandra Bazdar, Saouma BouJaoude, Heba EL-Deghaidy, Marwa Eltanahy, Sibel Erduran, Sufian Forawi, Clare Gartland, Lilia Halim, Ying-Shao Hsu, Zanaton Haji Iksan, Deena Khalil, Meredith Kier, Nasser Mansour, Mohamad Sattar Rasul, Seema Rivera, Dalene Swanson, Paige Teamey, Tuan Mastura Tuan Soh, Russell Tytler, No ë I Williams and Yi-Fen Yeh.

My Revision Notes: OCR GCSE (9–1) PE Third Edition

Heinemann

In 2011, I began creating online tutorial videos on Youtube, with a vision to share my GCSE expertise in English language and literature. As I write, these videos have been viewed over 10 million times across 214 different nations. My GCSE English Youtube channel has over 60,000 subscribers. To accompany these videos, I have published over 20 revision guide eBooks- one of which you are currently looking at! My guide to the previous GCSEs in English language and literature sat at the top of the Amazon bestseller's list for over 45 weeks and achieved huge acclaim; this book aims to build on those strengths. In this ebook, you'll receive detailed guidance on every question in the AQA GCSE English Language exams. Please note that this ebook is not endorsed by or affiliated to any exam boards; I am simply an experienced teacher using my expertise to help students. However, if you read some of the 100+ reviews for this guide, you will see that it has already helped students, teachers and parents across the UK. As an extra bonus, this ebook contains links to five special video tutorials which are only available to those who purchase this guide. These links appear later in the text. I hope you enjoy the ebook. You should also purchase the accompanying eBook which covers the English Literature exams.

The Essential 8 Oxford University Press, USA

Revision Plus - Ocr Gateway Gcse Physics Collins GCSE Essentials

Develop your learners' skills in creative writing and writing for a purpose. Introduce your learners to creative writing and writing for a purpose. They'll write a biography of a famous person and a poem based on The Pied Piper, helping build their extended writing skills as they progress through the units. Each unit focuses on a different text type such as dialogue, recounts, reports or instructions. Model texts in each chapter show learners good examples of each writing type and specific activities are included to help them practise their grammar. Planning tools and an extended writing task develop learners' essential skills including editing, checking, planning and creative thinking.

Cambridge Grammar and Writing Skills Learner's Pearson Education Ltd

GCSE Physics OCR Gateway B Letts and Lonsdale

Provides an introduction to the connection between force and motion and describes the effects of air resistance, mass, and gravity.

GCSE Separate Sciences Heinemann

"A classic of educational criticism proves its relevance in light of today's educational quandaries First published by McGraw-Hill in 1939, The Saber-Tooth Curriculum was a groundbreaking satire of the educational establishment, and its unwillingness to adapt to changing times. Throughout the decades, this witty work has not only become an educational classic, but has also remained as relevant and applicable to the key questions in education today as it was when first published. With tongue firmly in cheek, Peddiwell takes on the conflicting philosophies of education, from its imagined origins at the dawn of time to its culmination in a ritualistic, deeply entrenched social institution with rigidly prescribed norms and procedures. Developed within a fanciful framework of fictional lectures, given by fictional author Professor J. Abner Peddiwell, doyen in the History of Education at Petaluma State College, this humorous fable illustrates the progress of education and gives valuable insights into how it could continue to develop in the decades to come."--desc. of
