Exam Board: OCR Level: A-level Subject: Mathematics First Teaching: September 2017 First Exam: June 2018 An OCR endorsed textbook Boost your students' knowledge, skills and understanding so that they can reason and apply mathematical techniques in solving problems; with resources developed specifically for the OCR specification by subject experts and in conjunction with MEI (Mathematics in Education and Industry). - Boosts students' confidence approaching assessment with plenty of practice questions and skill-focused exercises. - Build connections between topics with points of interest and thi.

Mechanics 3 and 4 for OCR Hachette UK

Exam Board: OCR Level: A-level Subject: Mathematics First Teaching: September 2017 First Exam: June 2018 An OCR endorsed textbook Grow your students' confidence in applying mathematical techniques to solving problems with resources developed specifically for the OCR specification subject experts and in conjunction with MEI (Mathematics in Education and Industry). - Develop reasoning and problem-solving skills with practice questions and differentiated exercises that build mathematical techniques. - Help students to overcome misconceptions and develop insight into problem-solving with annotated worked examples. - Build connections between topics with points of interest and things to notice such as links to real world examples and noticing patterns in the mathematics. - Enhance individual understanding with discussion points designed for the classroom. - Consolidate understanding with end of chapter summaries of the key points. - Provide clear paths of progression

that combine pure and applied maths into a coherent whole. - Reinforce Year 1 content with short review chapters - Year 2 only

Core Mathematics 2 Hodder Education

These resources offer a range of material for the OCR Specification. Provide test questions for each chapter together with detailed mark schemes.

OCR A Level (Year 2) Mathematics Exam Practice Hodder Education Essential revision guide matching the OCR specification will help your students refresh their knowledge of tricky concepts with past paper exam questions. Detailed worked answers are also included, so students can better prepare for their exam. - Reinforces and refreshes your original teaching by referencing the endorsed textbook- Revision is kept stress-free and focused with key information explained in concise terms- Written by specialist authors with experience and vast knowledge of the covered topics  
CONTENTS: Section 1 - Algebra 1. Basic algebra 2. Quadratic equations 3. Simultaneous equations 4. Setting up equations 5. Inequalities 6. Polynomials 7. The binomial expansion Section 2 - Co-ordinate Geometry 1. Straight lines 2. Circles 3. Linear programming Section 3 - Trigonometry 1. The trigonometrical ratios 2. Identities and equations 3. Area and the sine and cosine rules 4. 2-D and 3-D problems Section 4 - Calculus 1. Differentiation 2. Tangents and normals 3. Stationary points 4. Integration 5. Definite integrals and area 6. Kinematics

Algebra: AQA GCSE Maths Higher Nelson Thornes

Fully endorsed by OCR and revised to match the 2005 specification, this series has been carefully revised by experienced teachers and provides easy to use texts. Cambridge Advanced Mathematics for OCR encourages achievement by supporting revision and consolidation through review exercises and mock exam papers written by experienced examiners. The books also explore ideas through practical and computer activities.
