A Level Mathematics for OCR A Student Book 2 (Year 2) James Currey Publishers

Provide full support for the Further Mechanics options with worked examples, stimulating activities and assessment support developed by subject experts and in conjunction with MEI (Mathematics in Education and Industry). The content benefits from the expertise of subject specialist Keith Pledger and the support of MEI (Mathematics in Education and Industry). - Ensure targeted development of reasoning and problem-solving skills with

plenty of practice questions and structured exercises that improve mathematical skills and techniques. - Build connections between topics, using real-world contexts to help develop modelling skills, thus providing a fuller and more coherent understanding of mathematical concepts. - Overcome misconceptions and develop insight into problem solving with annotated worked examples. - Measure progress with graduated exercises that support you at every stage of your learning.

A Level Mathematics for OCR A Student Book 1 (AS/Year 1) Hodder Education
This is an OCR endorsed resource Build strong subject knowledge and skills in A Level History using the in-depth analysis and structured support in this tailor-made

series for OCR's British period studies and enquiries. - Develops the analytical skills required to succeed in the period study by organising the narrative content around the key issues for students to explore - Enhances understanding of the chosen historical period, supplying a wealth of extracts and sources that offer opportunities to practise the evaluative skills needed for the enquiry - Progressively improves study skills through developmental activities and advice on answering practice exam questions - Helps students to review, revise and reflect on the course material through chapter summaries and revision activities that consolidate topic knowledge - Equips students with transferable critical thinking skills, presenting contrasting academic opinions

that encourage A Level historians to make informed judgements on major debates Each title in the OCR A Level History series contains one or two British period studies and its associated enquiry, providing complete support for every option in Unit Group 1. Britain 1603-1760 This title explores the reigns of the Stuart monarchs and Georgian Britain through two British period studies and two enquiries. It allows an in-depth understanding of the key historical knowledge, terms and concepts relevant to the period studied and encourages the critical use of evidence in investigating and assessing historical questions in the associated enquiries: 'The Execution of Charles I and the Interregnum 1646-1660' and 'The Glorious Revolution

1678-1689'. This title covers the following period studies and enquiries: - The Early Stuarts and 1603-1646 - The Execution of Charles I and the Interregnum - The Glorious Revolution 1678-1689 - The Making of Georgian Britain 1689-c1760
Maths Foundation Letts & Lonsdale
Exam Board: OCR Level: GCSE Subject: Business
First Teaching: September 2017 First Exam: June 2019 An OCR endorsed textbook Build strong knowledge and skills with this market-leading Student Book from OCR's Publishing Partner for GCSE Business; fully updated by subject experts for the 2017 specification, it provides comprehensive content coverage, engaging case studies and assessment activities. - Develops understanding of business concepts and theories through clear explanations, illustrated by diagrams and cartoons that help all learners access the content - Cements and extends subject knowledge with case studies

that encourage students to think commercially about contemporary issues and contexts - Enables students to apply their learning and strengthen their investigative, analytical and evaluation skills as they progress through a range of activities - Prepares students for assessment with a variety of practice questions and handy tips for successfully answering different question types - Supports revision by summarising the learning outcomes, key terms and facts for each unit

A Level Further Mathematics for AQA
Student Book 1 (AS/Year 1) Cambridge University Press

synoptic nature of the course. Includes answers
to aid independent study.

Edexcel A Level Further Mathematics Mechanics
Letts & Lonsdale

When the world emerges from the current
recession will you be the poorer for lack of
experience? Having gone through your perceived
necessary downsizing, have you left yourself wide
open for experience-poor competitors to step into
your experience-rich shoes? And if creeping
uncompetitiveness is not to overtake you, from
where will your next round of productivity gains
come? Could it be that the developed world is
wrecking its future for the lack of attention it is
giving to preserving and applying its hard-won and
expensively-acquired organisational memory
(OM)? Without its tried and tested experience, the

corporate body can't learn incrementally. The result? Having to re-invent the wheel, risk repeating mistakes and even not learning from successes. Corporate amnesia is the symptom. Experiential non-learning is the problem. And is not the current credit crunch a prime example? Identifying some gaping holes in the way modern walkabout managers are taught to make decisions, Corporate DNA outlines both the size of the problem and a solution - and surprise, surprise, it's not rocket science or expensive.

A Level Further Mathematics for OCR A Pure Core Student Book 1 (AS/Year 1)
HarperCollins UK

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough
