An Overview of the Human Services CRC Press

This Brief reviews the past, present, and future use of school corporal punishment in the United States, a practice that remains legal in 19 states as it is constitutionally permitted according to the U.S. Supreme Court. As a result of school corporal punishment, nearly 200,000 children are paddled in schools each year. Most Americans are unaware of this fact or the physical injuries sustained by countless school children who are hit with objects by school personnel in the name of discipline. Therefore,

Corporal Punishment in U.S. Public Schools begins by summarizing the legal basis for school corporal punishment and trends in Americans' attitudes about it. It then presents trends in the use of school corporal punishment in the United States over time to establish its past and current prevalence. It then discusses what is known about the effects of school corporal punishment on children, though with so little research on this topic, much of the relevant literature is focused on parents' use of corporal punishment with their children. It also provides results from a policy analysis that

examines the effect of state-level school corporal punishment bans on trends in juvenile crime. It concludes by discussing potential legal, policy, and advocacy avenues for abolition of school corporal punishment at the state and federal levels as well as summarizing how school corporal punishment is being used and what its potential implications are for thousands of individual students and for the society at large. As school corporal punishment becomes more and more regulated at the state level, Corporal Punishment in U.S. Public Schools serves an essential guide for policymakers

and advocates across the country as well as for researchers, scientists, practitioners, and graduate students.

Across the world, we see an explosion of unpredictable violence committed by alienated young men. Jamil Jivani recounts his experiences working as a youth activist throughout North America and the Middle East, drawing striking parallels between ISIS recruits, gangbangers, and Neo-Nazis in the West. Having narrowly escaped a descent into crime and gang violence in his native

Toronto, Jivani has devoted his life to helping other at-risk youths avoid this fate in cities across North America. After the Paris terrorist attacks of 2016, he traveled to Europe and the Middle East to assist Muslim community outreach groups focused on deterring ISIS recruitment. Why Young Men is the story of Jivani's education as an activist on the front lines of one of today's most dangerous and intractable problems: the explosion of violence among angry young men throughout the world. Jivani relates his personal story and describes his entrance into the community outreach movement, his work with disenfranchised people of color in

North America and at-risk youth in the Middle East and Africa, and his experiences with the white working class. The reader learns along with him as he profiles a diverse array of young men and interviews those who are trying to help them, drawing parallels between these groups, refuting the popular belief that they are radically different from each other, and offering concrete steps toward countering this global trend.

THE SOCIAL WORK SKILLS WORKBOOK, Eighth Edition, enables students to develop proficiency in professionalism and the essential social work skills. Each skill supports one or more of the 43 knowledge and value statements and the 31 practice behaviors that elaborate the core competencies in the 2015 EPAS of the CSWE. The skills also align with nationally standardized licensing exams. The text

includes expository content grounded in contemporary research, assessment tools and processes, and strong experiential components that help students get a realistic sense of the field. Case examples, summaries, and skill-building exercises cultivate students' professionalism and expertise as confident, ethical, and effective helpers. Current social issues are evident throughout. The book can be used as a main text in social work skills labs, a resource for field or internship

courses, or a supplement to social work methods and practice courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

provides a cultural, ideological critique of identity construction in the context of virtualization.

Kimberly Rosenfeld explores the growing number of people who no longer reside in one physical reality but live, work, and play in multiple realities. Rosenfeld's critique of neo-liberal practices in the digital environment brings to light the on-going hegemonic and counter-hegemonic battles over control of education in the digital age. Rosenfeld draws conclusions for

empowering the population through schooling, and how it should understand, respond to, and help individuals live out the information revolution.

According to the 2009 census, more than five million people living in the United States have Alzheimer's disease or some other form of dementia. Not reported in these statistics are the fifteen million family caregivers who, in total,

contribute seventeen billion hours of unpaid care each year. This book addresses the needs and challenges faced by adult children and other family members who are scrambling to make sense of what is happening to themselves and the loved ones in their care. The author, an experienced medical and science writer known for her ability to clearly explain complex and emotionally sensitive topics, is also a former family caregiver herself. Using both personal narrative and well-

researched, expert-verified content, she guides readers through the often-confusing and challenging world of dementia care. She carefully escorts caregivers through the basics of dementia as a brain disorder, its accompanying behaviors, the procedures used to diagnose and stage the disease, and the legal aspects of providing care for an adult who is no longer competent. She also covers topics not usually included in other books on dementia: family dynamics, caregiver burnout, elder

abuse, incontinence, finances and paying for care, the challenges same-sex families face, and coping with the eventuality of death and estate management. Each chapter begins with a real-life vignette taken from the author's personal experience and concludes with "Frequently Asked Questions" and "Worksheets" sections. The FAQs tackle specific issues and situations that often make caregiving such a challenge. The worksheets are a tool to help readers organize, evaluate,

and self-reflect. A glossary of terms, an appendix, and references for further reading give readers a command of the vocabulary clinicians use and access to valuable resources.

The School Discipline Consensus Report presents a comprehensive set of consensus-based and field-driven recommendations to improve conditions for learning for all students and educators, better support

students with behavioral needs, improve police-schools partnerships, and keep students out of the juvenile justice system for minor offenses. More than 100 advisors representing policymakers, school administrators, teachers, behavioral health professionals, police, court leaders, probation officials, juvenile correctional leaders, parents, and youth from across the country helped develop more than two dozen policies and 60 recommendations to keep more students in productive classrooms and out of court rooms.

Those Who Can, Teach Human Kinetics

Written for students who are just beginning to study human services, this practical, easy-to-read guide provides a nuts-and-bolts overview of the field as well as a glimpse of what students can expect as they continue their education and begin working in their profession. Because the field encompasses many career opportunities, skills, and client populations, this text also helps students decide which specialty is right for

them. AN OVERVIEW OF THE HUMAN SERVICES, 2nd Edition, provides a look at human services agencies, jobs, workers, and populations served; a clear analysis of the major theories of causality; and helpful special chapters on such important topics as ethics and stress management. It prepares students by challenging them to become active learners via self-reflection, case studies, real-world scenarios, applied and experiential activities, and inventories. This edition has

been significantly revised and reorganized to improve coverage and flow of the material; for instance, with earlier and more detailed coverage of ethics, more information on two-year human service degrees, an entire chapter on case management, and a new chapter devoted to the issues and interventions related to interpersonal partner abuse, sexual assault (including military sexual assault), HIV/AIDS, and LGBT populations. Citizenship Studies Routledge

This book examines childhood in four Caribbean SIDS (Barbados, Jamaica, Haiti and St. Lucia). Through the analysis of primary and secondary data, the author reveals that children in Caribbean SIDS experience an endangered childhood. The intrinsic characteristics of SIDS, including susceptibility

to climate change, and high levels of poverty, indebtedness and inequality, Henry-Lee argues, increase the vulnerability of children. Furthermore, duty bearers are not adequately investing in children, private and public spaces are not child-friendly, and children's rights are violated daily. Endangered and Transformative Childhood in Caribbean Small Island Developing States shows that children are therefore at risk of being left behind in the fulfilment of the UN2030 Agenda and that the Convention of the Rights of the

Child (1989) lacks enforceable sanctions. Unless a radical transformation of childhood takes place, the prosperity and viability of Caribbean SIDS will remain elusive for generations to come. Students, scholars and policy-makers with an interest in childhood studies, children's rights, and social policy will find this book a valuable read.

Each chapter in The Counselor and the Law has been updated to reflect changes in the 2014

ACA Code of Ethics, findings of recent court cases, and new federal and state legislation. Attorney Nancy Wheeler and Burt Bertram, a private practitioner and counselor educator, provide a comprehensive overview of the law as it pertains to counseling practice; an in-depth look at counselors' legal and ethical responsibilities; and an array of risk management strategies. This edition contains a thoroughly updated chapter on distance counseling, technology, and social media; regulatory updates to the HIPAA and the HITECH Act;

and recent case law developments regarding legal risks for counselor educators. The issues surrounding civil malpractice liability, licensure board complaints, confidentiality, duty to warn, suicide and threats of harm to self, professional boundaries, records and documentation, and managing a counseling practice are also addressed in detail.
