The Crying of Lot 49 Farrar, Straus and Giroux

"Everyone knows that Marcus Tullius Cicero was one of the great statesmen, lawyers, and effective orators in the history of Rome. But did you also know he was regarded as one of the funniest people in Roman society as well? Five hundred years after his death, in the twilight of antiquity, the writer Macrobius ranks him alongside the comic playwright Plautus as the one of the two greatest wits ever. In this book, classicist Michael Fontaine, proposes to translate selections from Cicero's great rhetorical treatise, *On the Ideal Orator (De Oratore)*. That larger work covered the whole of rhetoric and effective public speaking and debate. However, contained within it, is a long section focused on the effective use of humor in public speaking. In it, Cicero is concerned not just with various kinds of individual jokes, but with jokes that are advantageous in social situations. He advises readers on how to make the most effective use of wit to win friends, audiences, and achieve their overall ambitions. Cicero wants to teach his readers how to tell a joke without looking like a buffoon, and how to prevent or avoid jokes from backfiring. Hence, he does give scores of examples of jokes-some of which are timeless and translate easily, others that involve puns in Latin that challenged the translator's creativity. But overall, this work brings to the fore a little known, but important part of Cicero's classic work."--

Princeton Review

The question of how to lead a happy and meaningful life has been at the heart of philosophical debate since time immemorial. Today, however, these questions seem to be addressed not by philosophers but self-help gurus, who frantically champion the individual's quest for self-expression and self-realization; the desire to become authentic. Against these new age sophistries, *How to Stop Living and Start Worrying* tackles the question of 'how to live' by forcing us to explore our troubling relationship with death. For Critchley, philosophy begins with the question of finitude and with his understanding of a key classical theme - that to philosophize is to learn how to die. Learning how to accept both our own and others' mortality as a part of life also raises the question of how to love. Critchley argues that the act of love requires us to give up something of ourselves, to lose control so as to be open to the demands of love. We will never be equal to this demand and so we are brought face to face with our own limitations - one form of which is what Critchley calls our 'originary inauthenticity'. By scrutinizing the very nature of humour, Critchley explores what we need to laugh at ourselves and presents the need to confront the inescapable ridiculousness of life. Reflecting on the work of over 20 years, this book provides a unique, witty and erudite introduction to the thought of Simon Critchley. It includes a revealing biographical conversation with Critchley and a fascinating debate with the critically acclaimed novelist Tom McCarthy about the nature of authenticity. Taken together the conversations give an intimate portrait of one of the most lucid, provocative and engaging philosophers writing today.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

A landmark work of literary criticism Northrop Frye's *Anatomy of Criticism* is the magnum opus of one of the most important and influential literary theorists of the twentieth century.

Breaking with the practice of close reading of individual texts, Frye seeks to describe a common basis for understanding the full range of literary forms by examining archetypes, genres, poetic language, and the relations among the text, the reader, and society. Using a dazzling array of examples, he argues that understanding "the structure of literature as a total form" also allows us to see the profoundly liberating effect literature can have.
