Oedipus the King by Sophocles (Book Analysis)

This title is the study guide which accompanies The Developing Person Through Childhood and Adolescence 6th edition, (ISBN 0716752573).

Study Guide for The Developing Person Through Childhood and Adolescence 6e  
Philip Allan

"In Oedipus Tyrannus, the son's "retroactive discovery" of his father reveals a stunning truth and transforms guiltless murder into unbearable patricide. But which father is discovered? As Oedipus looks to several father figures--to Polybus, Teiresias, and Apollo, as well as Laius--he finds different laws and lessons and conflicting clues to his own identity. According to Pietro Pucci, the "truth" Oedipus

discovers is in fact shifting fabrication, a son's struggle to answer the question "What is a father?" "In Oedipus and the Fabrication of the Father Pucci focuses on the plurality of father figures in Oedipus Tyrannus and offers a significantly new understanding of the nature of Oedipus's transgression. He examines the shifting relationship between father and son, along with notions of patricide and incest, destiny and chance, law and truth, and ironic revenge. Throughout, Pucci discusses important readings by other modern interpreters, including Freud, Lacan, and Heidegger as well as Reinhardt, Rudnytsky, Knox, Segal, and Vernant. Oedipus and the Fabrication of the Father places the work of Sophocles in a contemporary theoretical context, offering a sophisticated and subtle relocation of the play at the center of

---

current debates on textuality."--BOOK

Sophocles I contains the plays “ Antigone, ”  
translated by Elizabeth Wyckoff; “ Oedipus the  
King, ” translated by David Grene; and “ Oedipus  
at Colonus, ” translated by Robert Fitzgerald. Sixty  
years ago, the University of Chicago Press undertook  
a momentous project: a new translation of the Greek  
tragedies that would be the ultimate resource for  
teachers, students, and readers. They succeeded.  
Under the expert management of eminent classicists  
David Grene and Richmond Lattimore, those  
translations combined accuracy, poetic immediacy,  
and clarity of presentation to render the surviving  
masterpieces of Aeschylus, Sophocles, and Euripides  
in an English so lively and compelling that they

---

remain the standard translations. Today, Chicago is taking pains to ensure that our Greek tragedies remain the leading English-language versions throughout the twenty-first century. In this highly anticipated third edition, Mark Griffith and Glenn W. Most have carefully updated the translations to bring them even closer to the ancient Greek while retaining the vibrancy for which our English versions are famous. This edition also includes brand-new translations of Euripides' *Medea*, *The Children of Heracles*, *Andromache*, and *Iphigenia among the Taurians*, fragments of lost plays by Aeschylus, and the surviving portion of Sophocles' satyr-drama *The Trackers*. New introductions for each play offer essential information about its first production, plot, and reception in antiquity and beyond. In addition, each volume includes an introduction to the life and work of its tragedian, as well as notes addressing textual uncertainties and a glossary of names and places mentioned in the plays. In addition to the new content, the volumes have been reorganized both

within and between volumes to reflect the most up-to-date scholarship on the order in which the plays were originally written. The result is a set of handsome paperbacks destined to introduce new generations of readers to these foundational works of Western drama, art, and life.

A critical A-Z guide to theory Spark Publishing Group

Nearly everyone has an old habit that just won't go away for good—anything from spending too many hours online, to spending too much money on QVC or eBay, to eating huge portions of ice cream any time the world seems stressful, to taking an extra pain pill because, well, why feel pain? Big or small, some of these habits can be very destructive and public; others can be equally devastating but easier to shield from view. Public or private, as we all know through painful experience, changing an old habit is no easy business—even wanting to do it can be difficult!

---

We all feel so good when we can avoid what we know we shouldn't do: we've worked so hard. But why isn't that enough? Shouldn't it be? The general statistic says that over 90 percent of people relapse within a year of breaking an old habit. If that's true, we need to look at a new model for success: one that accounts for more than the effort involved (and we can be pretty good, many of us, at getting that far ... ); we need one that accounts for doing it for the rest of your life. *The Complete Idiot's Guide to Changing Old Habits for Good* is the whole package—from separating good habits from bad, evaluating the risks and benefits (and yes, those cozy old habits can have their good sides), preparing yourself for change, and doing it for good. It offers meaningful, hands-on strategies that anyone dealing with any behavioural issues can use.

activities are also included.

### Oedipus at Colonus Penguin

Unlock the more straightforward side of Oedipus the King with this concise and insightful summary and analysis! This engaging summary presents an analysis of Oedipus the King by Sophocles, a world-famous tragedy in which a man discovers that he has murdered his father and married his mother, despite having tried to escape this fate. The tragic irony in the play and the pathos of the scenes leading up to its final tragic ending have made it one of the major theatrical works of Ancient Times. Sophocles wrote 120 plays during his lifetime, but Oedipus the King is one of just seven to have survived. This classic tragedy has inspired many plays and films, and was even the basis for Freud's famous theory of the Oedipus Complex. Find out everything you need to know about Oedipus the

King in a fraction of the time! This in-depth and informative reading guide brings you:

- A complete plot summary
- Character studies
- Key themes and symbols
- Questions for further reflection

A Lively and Entertaining Guide to Reading Between the Lines Svastham Healthcare

While Greek tragedies are often studied as works of literature, they are less frequently examined as products of the social and political environment in which they were created. Rarely, too, are the visual and spatial aspects of these plays given careful consideration. In this detailed and innovative book, Lowell Edmunds combines two readings of Oedipus at Colonus to arrive at a new way of looking at Greek tragedy. Edmunds sets forth a semiotic theory of theatrical space, and then applies this theory to the visual and spatial dimensions of Oedipus at Colonus. The book includes an Appendix on the life of Sophocles and the reception of Oedipus at Colonus. Edmunds's unique approach to Oedipus at Colonus makes this an important book for

students and scholars of semiotics, Greek tragedy, and theatrical performance.

And Other Stories Simon and Schuster

Translated and edited by Peter D. Arnott, this classic and highly popular edition contains two essential plays in the development of Greek tragedy-Oedipus the King and Antigone-for performance and study. The editor's introduction contains a brief biography of the playwright and a description of Greek theater. Also included are a list of principal dates in the life of Sophocles and a bibliography.

Kafka on the Shore displays one of the world's great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where

cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

Greek Tragedy and Political Philosophy  
Bloomsbury Publishing

A new and definitive guide to the theatre of the ancient world The Guide to Greek Theatre and Drama is a meticulously researched and accessible survey into the place and purpose of theatre in Ancient Greece. It provides a comprehensive author-by-author examination of the surviving plays of Aeschylus, Sophocles, Euripides, Aristophanes, and Menander, as well as giving an insight into how and where the plays were performed, who acted them out, and who watched them. It includes a fascinating discussion of the function of the essential characteristics of Greek drama, including verse, rhetoric, music, comedy, and chorus. Above all it offers a

---

fascinating viewpoint onto the everyday values of the ancient Greeks; values with a continuing influence over the theatre of the present day.

Introduction to Schizoanalysis Bloomsbury Publishing

Gilles Deleuze and Félix Guattari's *Anti-Oedipus* is the first part of a two volume project entitled *Capitalism and Schizophrenia*. Challenging the twin orthodoxies of Lacanian psychoanalysis and Althusserian Marxism, *Anti-Oedipus* is an important and exciting, yet challenging piece of philosophical writing. Ian Buchanan's *Reader's Guide to Anti-Oedipus* is the ideal companion to one of the twentieth-century's most influential philosophical works.

Guide To Greek Theatre And Drama  
Routledge

When Oedipus met the Sphinx on the road to Thebes, he did more than answer a riddle—he spawned a myth that, told and retold, would become one of Western culture's central narratives about self-understanding.

Identifying the story as a threshold myth—in which the hero crosses over into an unknown and dangerous realm where rules and limits are not known—*Oedipus and the Sphinx* offers a fresh account of this mythic encounter and how it deals with the concepts of liminality and otherness. Almut-Barbara Renger assesses the story's meanings and functions in classical antiquity—from its presence in ancient vase painting to its absence in Sophocles's tragedy—before arriving at two of its major reworkings in European modernity: the psychoanalytic theory of

---

Sigmund Freud and the poetics of Jean Cocteau. Through her readings, she highlights the ambiguous status of the Sphinx and reveals Oedipus himself to be a liminal creature, providing key insights into Sophocles' portrayal and establishing a theoretical framework that organizes evaluations of the myth's reception in the twentieth century. Revealing the narrative of Oedipus and the Sphinx to be the very paradigm of a key transition experienced by all of humankind, Renger situates myth between the competing claims of science and art in an engagement that has important implications for current debates in literary studies, psychoanalytic theory, cultural history, and aesthetics. *How I Found Meaning in an Ancient Masterpiece* McGraw-Hill Education (UK)

"This book provides a very good introduction to the key concepts and theories that inform and frame the current psychotherapeutic and counselling landscape. Each author has written on a selection of basic concepts as they are approached in their preferred therapeutic modality, resulting in an exciting and inclusive overview of both old and contemporary psychotherapeutic thought. In addition, each author is mindful of the importance of a critical appraisal of the various concepts and theories. Thus, this book will be extremely useful both for trainees and practitioners." Dr Anastasios Gaitanidis, Senior Lecturer, University of Roehampton, London, UK "As well as being an invaluable source of knowledge about all aspects of counselling and psychotherapy, this book is a real pleasure to read. The authors have been able to capture the essence of ideas, traditions and key

---

figures in a way that is accessible and a consistent source of delight and illumination. Highly recommended for anyone wishing to expand their psychotherapeutic horizons." John McLeod, Emeritus Professor of Counselling, University of Abertay Dundee, UK "This book does what it says on the tin, it highlights the key concepts and theories in the field of counselling and psychotherapy. It is a systematic and encyclopaedic voyage of all the central constructs in the field. It is very well written, snappy and thorough, but more important, it serves a vital need of putting in one place all the theories and concepts needed by anyone interested in counselling and psychotherapy." Cary L. Cooper, CBE, Professor of Organizational Psychology and Health, Lancaster University, UK and President of BACP "This is an invaluable guide for anyone wanting easily accessible information about counselling theory and practice. It will be as useful to trainees sitting as counsellors, as to experienced practitioners wanting to update their knowledge on the latest thinking." Tim Bond, University of Bristol, UK This helpful book offers a concise overview of core concepts within the four dominant approaches to counselling and psychotherapy: psychodynamic, humanistic-existential, cognitive behavioural and integrative. The book aims to assist you in developing your critical thinking and essay writing skills and includes: Over 140 entries, each between 500 and 1200 words Critical and engaging discussions of core concepts Biographical sketches of leading theorists, including: Freud, Jung and Rogers Using the popular alphabetical format, Key Concepts in Counselling and Psychotherapy is an ideal first source for students with an essay on counselling theory to write, a case study to

---

analyse, a belief or assumption to challenge, or a question to explore. It will also appeal to practitioners or academics wanting to refresh their knowledge of theory and research.

### The Oedipus Plays Macmillan

"This study guide is designed for use with The Developing Person Through the Life Span, Sixth Edition, by Katleen Stassen Berger. It is intended to help students evaluate their understanding of that material, and to review any problem areas.

[Sections such as] 'How to Manage Your Time Efficiently,' 'Study more effectively', and 'Thinking Critically' provide detailed instructions on how to use the textbook. Each chapter ... includes a Chapter Overview, a set of Guided Study questions, a Chapter Review section, and three review tests." --Preface.
