GATEWAY TO HELL'S FURY The Union of Arcana has expanded through the portals linking parallel universes for over a century and a half. In that time, its soldiers and sorcerers have laid claim to one uninhabited planet after another ³/₄ all of them Earth, and in the process, the Union has become the most powerful, most wealthy civilization in all of human history. But now the Union's scouts have discovered a new portal, and on its far side lies another human society, Sharona, which has also been exploring the Multiverse, and the first contact between them did not go well. Arcana is horrified by the alien weapons of its sudden opponents, weapons its sorcerers cannot explain, weapons based upon something called . . . science. But Sharona is equally horrified by Arcana's "magical" weapons. Neither side expected the

confrontation and each thinks the other fired first. But as the initial disastrous contact snowballs into all-out warfare, both sides can agree on one thing. The portal which brought them together is Hell's Gate itself! At the publisher's request, this title is sold without DRM (Digital Rights Management). "Magic and high tech collide in this exciting military SF novel from bestseller Weber and Evans, the first of a new series. . . . The authors treat both societies sympathetically and realistically, with human vices and virtues evenly distributed." ³/₄ Publishers Weekly

Earth is conquered. The Shongairi have arrived in force, and humanity's cities lie in radioactive ruins. In mere minutes, over half the human race has died. Now Master Sergeant Stephen Buchevsky, who thought he

was being rotated home from his latest tour in Afghanistan, finds himself instead prowling the back country of the Balkans, dodging alien patrols and trying to organize the scattered survivors without getting killed. His chances look bleak. The aliens have definitely underestimated human tenacity - but no amount of heroism can endlessly hold off overwhelming force. Then, emerging from the mountains and forests of Eastern Europe, new allies present themselves to the ragtag human resistance. Predators, creatures of the night, human in form but inhumanly strong. Long Enemies of humanity . . . until now. Because now is the time to defend Earth.

Meanwhile, on the remote planet Masada, the long-term rebellion can never rise above-ground, as the slave population is subjugated by orbital laser arrays controlled by the Theocracy in their cylinder worlds, and by the fact that they cannot safely leave their labour compounds. New York Times Best Seller. Wall Street Journal Best Seller. First Time in Paperback. A New Novel in David Weber's Best-Selling Honor Harrington Universe **FIRST TIME IN PAPERBACK! NEW YORK TIMES AND WALL STREET JOURNAL BEST SELLER!** As the slavemasters of Mesa plot against the Star Empire of Manticore and the newly liberated slave planet of Torch, Anton Zilwicki and the notorious Havenite secret agent Victor Cachat set off on a dangerous mission to uncover the truth concerning a wave of mysterious assassinations that have been launched against Manticore and Torch. Most people are sure that the Republic of Haven is behind the assassinations, but Zilwicki and Cachat suspect others of being the guilty party. Queen Berry of Torch was one of the targets of the unknown assassins. The former head of the Ballroom slave liberation organization, Jeremy X—now one of Torch's top officials, but still

considered by many the most dangerous terrorist in the galaxy—calls in some past favors owed to him. In response, a security officer from Beowulf arrives in Torch to take charge of Queen Berry's security—a task made doubly difficult by the young monarch's resentment of bodyguards and the security officer's own growing attachment to her. Meanwhile, powerful forces in the Solarian League are maneuvering against each other to gain the upper hand in what they all expect to be an explosive crisis that threatens the very existence of the League itself.

THE ROAD HOME Bahzell Bahnakson of the Horse Stealer hradani never wanted to be a champion of the War God.

Unfortunately, Tomandk had insisted. Even more unfortunately, Bahzell's own sense of responsibility hadn't let him say, "No."

Which was how he found himself in the Empire of the Axe, where even people who didn't actively hate hradani regarded them with suspicion and fear. Of course, that was only the start of his problems. Next, there was the Order of Tomanak, many of whom were horrified by the notion that their deity had chosen a hradani as a champion . . . and intended to do something about it. And assuming he survived that, he had to go home-across three hundred leagues of bitter winter snow-to face a Dark God who threatened to destroy all hradani. Throw in the odd demon and brigand ambush, and add a powerful neighboring kingdom with no intention of letting Bahzell (or anyone else) save his people, and you have the makings of a really bad day. But one thing Bahzell has learned: a champion of Tomanak

does what needs doing. And the people in his way had better move. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Blue Girl DigiCat

The sequel to the New York Times best seller *Off Armageddon Reef* The world has changed. The mercantile kingdom of Charis has prevailed over the alliance designed to exterminate it. Armed with better sailing vessels, better guns and better devices of all sorts, Charis faced the combined navies of the rest of the world at Darcos Sound and Armageddon Reef, and broke them. Despite the implacable hostility of the Church of God Awaiting, Charis still stands, still free, still tolerant, still an

island of innovation in a world in which the Church has worked for centuries to keep humanity locked at a medieval level of existence. But the powerful men who run the Church aren't going to take their defeat lying down. Charis may control the world's seas, but it barely has an army worthy of the name. And as King Cayleb knows, far too much of the kingdom's recent good fortune is due to the secret manipulations of the being that calls himself Merlin-a being that, the world must not find out too soon, is more than human. A being on whose shoulders rests the last chance for humanity's freedom. Now, as Charis and its archbishop make the rift with Mother Church explicit, the storm gathers.

David Weber's *Honorverse*. Lieutenant Travis Long of the Royal Manticoran Navy is the sort of person who likes an orderly universe. One where people follow the rules. Unfortunately, he lives in the real universe. The good news is that Travis is one of those rare people who may like rules but has a talent for thinking outside them when everything starts coming apart. That talent has stood him ³/₄ and the Star Kingdom ³/₄ in good stead in the past, and it's one reason he's now a _mustang, Ó an ex-enlisted man who's been given a commission as a King's officer. The bad news is that two of the best ways of making enemies ever invented are insisting on enforcing the rules . . . and thinking outside them when other people don't. Travis learned that lesson the hard way as a young volunteer in basic training, and he knows that if he could just keep his head down, turn a blind eye to violations of the rules, and avoid stepping on senior officers' toes, he'd

do just fine. But the one rule Travis Long absolutely can't break is the one that says an officer in the Royal Navy does his duty, whatever the consequences. At the moment, there are powerful forces in the young Star Kingdom of Manticore's Parliament which don't think they need him. For that matter, they're pretty sure they don't need the Royal Manticoran Navy, either. After all, what does a sleepy little single-system star nation on the outer edge of the explored galaxy need with a navy? Unhappily for them, the edge of the explored galaxy can be a far more dangerous place than they think it is. They're about to find out why they need the Navy . . . and how very, very fortunate they are that Travis Long is in it. only her job, but her whole self. Despite the desire to move on, Anne finds her new career as an arson investigator a pale substitute for all the adrenaline-fueled buzz she left behind. There he was in his sailboat in the middle

of the Atlantic, all alone and loving it. Well, there was a US Navy carrier group on his southern horizon, but he was a Navy guy himself, so he didn't mind. Then came the UFOs, hurtling in from the Outer Black to overfly the carriers at Mach 17. Their impossible aerobatics were bad enough^{3/4}but then they started shooting at each other. And at the Navy. With nukes. Little ones at first, but winding up with a 500 megatonner at 90 miles that fried every piece of electronics within line-of-sight. Richard Ashton thought he was just a ringside observer to these now over-the-horizon events.
