From two of the greatest imaginations of our time comes a magnificent novel of adventure and magic...SHADOW MOON: First in the Chronicles of the Shadow War. The genius of Star Wars(r) creator George Lucas and the vision of Chris Claremont, the author of the phenomenally bestselling The Uncanny X-Men adventures, merge in what must be the fantasy event of the year. In Shadow Moon, war and chaos have gripped the land of Tir Asleen. An ancient prophecy reveals one hope: a savior princess who will ascend to the throne when the time is right. But first, a Nelwyn wanderer must face forces of unimaginable malevolence and dangerous, forbidden rites of necromancy that could bring back a powerful warrior from soulless sleep. George Lucas reshaped filmmaking in the '70s and '80s with his Star Wars and Indiana Jones films. When Bantam Books asked Lucas if he had any stories he would like to develop as novels rather than as films, Lucas turned to his 1988 fantasy film, Willow. "When I wrote the story for Willow, I began with the pre-story," Lucas said, "but the full story was yet to be told." Now, Lucas's vision is being fulfilled with the talented help of Chris Claremont. Having previously taken the reins of what was for a decade the bestselling comic in the western hemisphere (The Uncanny X-Men) Claremont assumes the responsibility of foster parent to Lucas's creation. On sale in hardcover now, and available on BDD Audio Cassette as well, SHADOW MOON is a momentous new adventure for readers looking to spend part of this summer in a fantastic world. SHADOW MOON is one of Bantam Spectra's most exciting publishing events in 1995, the year we celebrate our 10th Anniversary as the premiere publishing imprint of books of speculative fiction.

In 1959, Jean Craighead George published My Side of the Mountain. This coming-of-age story about a boy and his falcon went on to win a Newbery Honor, and for the past forty years has enthralled and entertained generations of would-be Sam Gribleys. The two books that followed--On the Far Side of the Mountain and Frightful's Mountain--were equally extraordinary. Now all three books are available in one deluxe yet affordable volume for veteran devotees and brand-new fans alike.

Unexpectedly suspenseful, but written with all the fluency and dark humor of Tom Perrotta's The Wishbones and Joe College, Little Children exposes the adult dramas unfolding amidst the swingsets and slides of an ordinary American playground. Tom Perrotta's thirty-ish parents of young children are a varied and surprising bunch. There's Todd, the handsome stay-at-home dad dubbed "The Prom King" by the moms of the playground; Sarah, a lapsed feminist with a bisexual past, who seems to have stumbled into a traditional marriage; Richard, Sarah's husband, who has found himself more and more involved with a fantasy life on the internet than with the flesh and blood in his own house; and Mary Ann, who thinks she has it all figured out, down to scheduling a weekly roll in the hay with her husband, every Tuesday at 9pm. They all raise their kids in the kind of sleepy American suburb where nothing ever seems to happen--at least until one eventful summer, when a convicted child molester moves back to town, and two restless parents begin an affair that goes further than either of them could have imagined. Perrotta received Golden Globe and Academy Award nominations for best screenplay for the film adaptation of Little Children, which was directed by Todd Field and starred Kate Winslet and Jennifer Connelly.

Children of God uncovers the significant, but largely unnoticed, place of the child as a prototype of human flourishing in the work of four authors spanning the modern period. Shedding new light on the role of the child figure in modernity, and in theological responses to it, the book makes an important contribution to the disciplines of historical theology, theology and literature and

ecumenical theology. Through a careful exploration of the continuities and differences in the work of Thomas Traherne, Jean-Jacques Rousseau, Friedrich Schleiermacher and Charles Péguy, it traces the ways in which their distinctive responses to human childhood structured the broader pattern of their theology, showing how they reached beyond the confines of academic theology and exercised a lasting influence on their literary and cultural context.

Now nearing fifty they all live within shouting distance in the same neighborhood deep in gentrified Brooklyn. But nothing has aged them like having to suddenly pass the torch (of sexuality, independence, and the ineffable alchemy of cool) to their own offspring. As secrets and revelations are finally let loose-- about themselves, and about the famous fourth band member who soared and fell without them-- the stability of their lives can never be reclaimed.

A middling professor at a Midwestern college, he can't afford his mortgage, he's exasperated his much-younger girlfriend, and his kids won't speak to him. And then there's the money--the small fortune his late wife, Francine, kept secret, which she bequeathed directly to his children. Those children are Ethan, an anxious recluse living off his mother's money on a choice plot of Brooklyn real estate, and Maggie, a would-be do-gooder trying

to fashion herself a noble life of self-imposed poverty. On the verge of losing the family home, Arthur invites his children back to St. Louis under the guise of a reconciliation. But in doing so, he unwittingly unleashes a Pandora's box of age-old resentments and long-buried memories--memories that orbit Francine, the matriarch whose life may hold the key to keeping them together. Spanning New York, Paris, Boston, St. Louis, and a small desert outpost in Zimbabwe, *The Altruists* is a darkly funny (and ultimately tender) family saga that confronts the divide between baby boomers and their millennial offspring. It's a novel about money, privilege, politics, campus culture, dating, talk therapy, rural sanitation, infidelity, kink, the American beer industry, and what it means to be a "good person."

This book examines the claim of Elijah Muhammad's roots. It has been said that success is an orphan with many fathers. The history, work and success of Elijah Muhammad is a classic example. Although during the great migration of blacks from the south to the north, many attempts were made to address their plight in the inner cities, the true solution went unaddressed until Master Fard Muhammad (God in person) came and raised up, then taught Elijah Muhammad how to raise the mentally dead so-called Negroes of America. The book lays out interesting arguments which enables the reader to see the clear evidence. The Fruit never falls far from the tree from whence it came.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between

European nations.

Romancing Mister Bridgerton: The 2nd Epilogue St. Martin's Press

Ladies' Night is a non-stop rollercoaster ride of sheer nerve rattling terror, previously deemed too violent for mass market publication. In this modern tale of the ages-old battle of the sexes carried to the extreme, Jack Ketchum again provides readers with an excursion into horror as relentless as a John Woo film. Tom Braun and his wife Susan aren't exactly a picturesque couple. Thus it comes as no surprise that Tom continually spends late evenings in bars and cheats on his wife. Unfortunately, their son Andy is caught in the middle of his parent's childish banter and family chaos. One life-altering evening turns this family's, along with most of New York's, perceptions on the nuclear family and male/female relationships upside down. When a tanker truck with "Ladies Inc." emblazoned on the side crashes in a quiet area in New York, an area it doesn't have authorization to be in, it liberally spills its contents all over the road and into the surrounding atmosphere. The local authorities deem the contents of the spill to be safe, based merely on the assumption that products coming from a women's label are more than likely benign. Moreover, the smell emanating from the spill is one of sweet cherry, similar to lollipops, which must of course be harmless if not favorable. This aforementioned assumption proves fatally incorrect. The chemical load the truck was hauling procures a discomfiting, bestial effect in women, forcing them to savagely attack males in their vicinity. Be they former friend or foe. Tom, while at a local bar, absorbs the evening's strange turn of events with traumatizing clarity as he witnesses first hand the metamorphosis of surrounding women into gruesomely instinctual brutes and mantis-like predators. He must get home to his son Andy, who is currently alone with his wife Susan. Hopefully before it is too late.
