Merely said, the Oil For Harley Evo Engine is universally compatible taking into account any devices to read.

Harley Evolution Engine

1984 - 1999 Overview | FMH Video

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in)

displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Harley Davidson: Change The Oil In A 1340 Evolution

Change The Oil In A 1340 Evolution The 1,340-cc Evolution engine was used by all Harley-Davidson motorcycles built between 1984 and 1998, when it was largely replaced by the new Twin-Cam 88 engines. As of 2011, the Sportster remains the only model from the Harley-Davidson that

still employs the Evolution engine, in both 883-cc and 1,200-cc ...

But I would say try a different 20w50. Some oils are just loud, and the EVO is just a loud engine. It is one of the reasons they went to chain drive cams in the Twin Cam, because of "noise pollution". Just because an engine is louder with one oil does not mean it is lacking protection. Id try VR1 or Kendall GT1 20w50.

HERITAGE SOFTAIL EVO 1340cc How to purge the oil system

The Harley Evolution engine helped bring Harley-Davidson back from bankruptcy. This was a major design advance for Harley-Davidson in many ways, the Harley Evolution engine is most distinct from earlier Harley-Davidson engine designs by due to its reliability, oil tightness, and

ability to run hard under all circumstances, thousands of miles ...
