This is the first book to
expose a crucial aspect of
the cover-up of the JFK
assassination conspiracy: the

doctoring of the Zapruder
film, allegedly a 27-second
home movie shot by Abraham
Zapruder in Dealey Plaza. The
evidence for alteration of
the Zapruder movie takes many
forms, including
inconsistencies with
eyewitness testimony,
discrepancies with other
films and photographs,
impossible movements within
the time-frame of the movie,
contradictions between the
movie and the physical layout
of Dealey Plaza, and the
multiple versions of the
movie itself. This book
brings together all the

leading authorities within the
assassination research
community, including David
Healy, authority on technical
processes of film production;
Jack White, who for forty
years has made a special
study of the JFK
assassination movies and
photographs; John Costella,
Ph.D., a physicist and
engineer with a background in
optics, the properties of
light, and moving objects;
and David W. Mantick, Ph.D.,
the foremost expert on the
medical evidence in the JFK
assassination.
