Dessert First! is contemporary portrait and documentary photographer Hanna Quevedo's debut photobook. Dessert First! compiles Quevedo's often self-reflective, gloriously grainy, color film images from a decade she spent in the US exploring and encountering varieties of weirdness, beauty, and freedom. 146 pages, screen-printed cover, book elastic enclosure, includes 2 custom stickers.

The Purma Camera Book Createspace Independent Publishing Platform Non-trial resolutions, often referred to as settlements, have been the predominant means of enforcing foreign bribery and other related offences since the entry into force of the OECD Anti-Bribery Convention 20 years ago. The last decade has seen a steady increase in the use of

coordinated multi-jurisdictional non-trial resolutions, which have, to date, permitted the highest global amount of combined financial penalties in foreign bribery cases. This study is the first cross-country examination of the different types of resolutions that can be used to resolve foreign bribery cases.

Manual de la Cámara Digital y Compacta Ansel Adams

Picking up a camera that is 50 or more years old, understanding how it works, using it in the field and obtaining a set of unique photographs can be very rewarding. There are many how to books whether they are original camera manuals or photography technique books, but I found few books that help a photographer get the most from using old and vintage cameras in today's world. I chose to use Purma cameras as they are a somewhat eccentric series of cameras, relatively easy to use and readily available at a reasonable

price from auction sites, car boot fairs, Facebook Marketplace, etc. The shutter mechanism, lens and body are all simple and it is therefore usually possible to understand whether a Purma camera is usable upon first inspection. The only issue that photographers may need to navigate is the supply of 127 film. It is available from some film suppliers or sourced by adapting 120 film.

[Proceedings of the 2019 Computer Vision Conference \(CVC\), Volume 2](#) Energybook - Rw Jemmett

The French film director Robert Bresson was one of the great artists of the twentieth century and among the most radical, original, and radiant stylists of any time. He worked with nonprofessional actors—models, as he called them—and deployed a starkly limited but hypnotic array of sounds and images to produce such classic works as *A Man Escaped*, *Pickpocket*, *Diary of a Country Priest*, and *Lancelot of the Lake*. From the beginning to the end of his career, Bresson dedicated himself to making movies in which nothing is superfluous and everything is always at stake. *Notes on the Cinematograph* distills the essence of Bresson's theory and practice as a filmmaker and artist. He discusses the fundamental differences between theater and film; parses the deep grammar of silence, music, and noise; and affirms the mysterious power of the image to unlock the human soul. This book, indispensable for admirers of this great director and for students of the cinema, will also prove an inspiration, much like Rilke's *Letters to a Young Poet*, for anyone who responds to the claims of the imagination at its most searching and rigorous.

With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In *Camera* is the perfect way to take your

photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

In this volume, notable scholars honor James W. Harris for his contributions to Romance phonology. Inscribed within generative grammar, the studies seek to explain various phonological processes, structured around glides, aspects of onsets/codas as well as stress and weight. This book will be a useful reference tool for specialists in theoretical phonology, language acquisition, language in contact, bilingualism, and Spanish dialectology.

In his early years on TV he was the 'wog' who was always being told to 'Leave the money on the fridge' by Ted Bullpitt in Kingswood Country. And ultimately he became the majestic patriarch, Manolis, in The Slap. Between times, he attended the birth of Triple J, ran the rugby league touchlines for ABC Sport, was a panellist on Andrew Denton's Live & Sweaty, offered drolleries on Strictly Dancing and directed one of the segments at the opening ceremony of the Sydney Olympics, as well as appearing in umpteen films and plays. Blood and Circuses is the wry and charming story of a young Greek Australian boy, whose family ran a cafe in Wagga Wagga in the 1950s and who dreamt of making his life in the theatre. It is a vivid account of a life lived to the full, beautifully written by a much-loved Australian.

Jesus willingly endured unimaginable depths of suffering for his friends. John 13:1 says he loved us to the uttermost. To love to the uttermost is to love freely, without reserve or limit, and without flaw or failure. As we journey with Jesus for eight days-from Palm Sunday to Easter Sunday-from triumphal entry, to arrest and trial, to death and burial and triumphant

resurrection, we gaze on a God-man who begrudges no pain or reproach on his pathway to redeem lost sinners. Here is the one who "humbled himself by becoming obedient to the point of death, even death on a cross" (Philippians 2:8). In *Love to the Uttermost: Devotional Readings for Holy Week*, John Piper calls you to fix your eyes steadily on Jesus as he loves you to the uttermost.

This book presents a remarkable collection of chapters covering a wide range of topics in the areas of Computer Vision, both from theoretical and application perspectives. It gathers the proceedings of the Computer Vision Conference (CVC 2019), held in Las Vegas, USA from May 2 to 3, 2019. The conference attracted a total of 371 submissions from pioneering researchers, scientists, industrial engineers, and students all around the world. These submissions underwent a double-blind peer review process, after which 118 (including 7 poster papers) were selected for inclusion in these proceedings. The book's goal is to reflect the intellectual breadth and depth of current research on computer vision, from classical to intelligent scope. Accordingly, its respective chapters address state-of-the-art intelligent methods and techniques for solving real-world problems, while also outlining future research directions. Topic areas covered include Machine Vision and Learning, Data Science, Image

Processing, Deep Learning, and Computer Vision
Applications.
