hi i have a om 460 la mercedes engine in a 2006 freightliner. problem im having is severe smoke under cold idle and extended warm idle. we hear a knocking noise and located it to cylinder #1. if i crack injector line to relieve little pressure, knocking and smoking goes away. replaced spray nozels and orifice tubes to all cylinders.

A phrase that customers often use is, "This is a diesel engine; the problem should be easy to diagnose." The most accurate part of that statement is that it is a diesel engine. Certainly, there are some common repairs needed on specific engines that are easy to do, but that doesn't mean everything else will be easy to diagnose.
