Final
Information
Quality Bulletin
for Peer
Review
OMB's peer
review bulletin
requires that

US federal
regulatory
agencies
submit all
"influential
scientific
information" to
peer review
before the
information is
publicly
disseminated.
The Bulletin
defines
"scientific

information" as:
**Federal
Register ::
Guidelines for
Ensuring and
Maximizing ...**
In general, an
agency
conducting a
peer review of a
highly influential
scientific
assessment
must ensure that
the peer review

process is transparent by making available to the public the written charge to the peer reviewers, the peer reviewers' names, the peer reviewers' report(s), and the agency's response to the peer reviewers' report(s).

This site presents the HHS Information Quality Guidelines, the supporting administrative mechanisms to

request correction of information covered under the guidelines, and the HHS Peer Review Agenda. The HHS Guidelines were developed in accordance with the provisions of P.L. 106-554 and OMB government-wide requirements directing all federal agencies to issue guidelines for Fish and Wildlife Service Purpose: The purpose of this document is to implement the Office of Management and Budget ' s (OMB) Final Information

Quality Bulletin for Peer Review (hereafter referred to as the Bulletin), which were issued on December 16, 2004, and published in the Federal Register on January 14, 2005 (FR 70:2664—2677). OMB Peer Review Disclaimer - Information Quality Guidelines OMB indicated that “ quality ” encompasses elements of utility, objectivity, and integrity, and said agencies can generally presume that data are “ objective ” if they have been subject to an independent peer review process. In

April 2004, OMB provided Congress with a report on the implementation of the IQA during FY2003.

NOAA - National Oceanic and Atmospheric Administration ... Bulletin for Peer Review. Do not seek correction of personal information through the Information Quality Act.. Information Disseminated by GSA. Based on our review, the General Services Administration (GSA) does not currently produce or sponsor the distribution of influential scientific information (including highly influential scientific assessments) within OMB's definitions.

"influential," peer

review is a required component of pre-dissemination review, as described in OMB's Final Information Quality Bulletin for Peer Review (Bulletin).
