- Iconic portraits and contact sheets from Goldfinger, Diamonds are Forever, Live and Let Die, Golden Eye and the Bond spoof, Casino Royale- The new James Bond film, No Time to Die, releases world-wide in April 2020- Documented by one of the world's greatest photographers: Terry O'Neill- Contributions from actors including Honor Blackman, George Lazenby and Jane Seymour- Includes rare and unseen images- The perfect gift for fans of James Bond Terry O'Neill was given his first chance to photograph Sean Connery as James Bond in the film Goldfinger. From that moment, O'Neill's association with Bond was made: an enduring legacy that has carried through to the era of Daniel Craig. It was O'Neill who captured gritty and roguish pictures of Connery on set, and it was O'Neill who framed the super-suave Roger Moore in Live and Let Die. His images of Honor Blackman as Pussy Galore are also important, celebrating the vital role of women in the James Bond world. But it is Terry O'Neill's casual, on-set photographs of a mischievous Connery walking around the casinos of Las Vegas or Roger Moore dancing on a bed with co-star Madeline Smith that show the other side of the world's most recognizable spy. Terry O'Neill opens his archive to give readers - and viewers - the chance to enter the dazzling world of James Bond. Lavish color and black and white images are complemented by insights from O'Neill, alongside a series of original essays on the world of James Bond by BAFTA-longlisted film writer, James Clarke; and newly-conducted interviews with a number of actors featured in O'Neill's photographs.

Bond fan. A fitting tribute to the Bond tradition, *Devil May Care* stands on its own as a triumph of witty prose and plenty of double-0 action. "In his house in Jamaica, Ian Fleming used to write a thousand words in the morning, then go snorkeling, have a cocktail, lunch on the terrace, more diving, another thousand words in the late afternoon, then more martinis and glamorous women. In my house in London, I followed this routine exactly, apart from the cocktails, the lunch, and the snorkeling." —Sebastian Faulks

Apollo 11 astronaut Buzz Aldrin's courageous, candid memoir of his return to Earth after the historic moon landing and his personal struggle with fame and depression. "We landed with all the grace of a freight elevator," Buzz Aldrin relates in

the opening passages of *Return to Earth*, remembering Command Module Columbia's abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn't realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, "I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before." *Return to Earth* is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon.

A leading behavioral economist reveals the tools that will improve our decision making

on screens Office workers spend the majority of their waking hours staring at screens. Unfortunately, few of us are aware of the visual biases and behavioral patterns that influence our thinking when we're on our laptops, iPads, smartphones, or smartwatches. The sheer volume of information and choices available online, combined with the ease of tapping "buy," often make for poor decision making on screens. In *The Smarter Screen*, behavioral economist Shlomo Benartzi reveals a tool kit of interventions for the digital age. Using engaging reader exercises and provocative case studies, Benartzi shows how digital designs can influence our decision making on screens in all sorts of surprising ways. For example:

- You're more likely to add bacon to your pizza if you order online.
- If you read this book on a screen, you're less likely to remember its content.
- You might buy an item just because it's located in a screen hot spot, even if better options are available.
- If you shop using a touch screen, you'll probably overvalue the product you're considering.
- You're more likely to remember a factoid like this one if it's displayed in an ugly, difficult-to-read font.

Drawing on the latest research on digital nudging, Benartzi reveals how we can create an online world that helps us think better, not worse.
