National Geographic Books
- The first major monograph on Andrew Grima, arguably Britain's greatest jewelry maestro- A glittering retrospective that encompasses Andrew Grima's life, career and legacy- Detailed pictures demonstrate Grima's impeccable artistry as a modernist designer - Preface by TV celebrity and Antique Roadshow

expert, Geoffrey Munn The father of modern jewelry, the golden engineer, the King of Bling... These are just some of the epithets assigned to Andrew Grima, the British genius who marched in the vanguard of a 1960s London-based movement that created a new vocabulary for jewelry design. Jeweler to the royals and the jet set, to the rule makers and the tastemakers, Grima was a feted celebrity who appeared on talk shows, in Path é newsreels and in advertisements for Canada Dry. He won The Queen's Award for Export, The Duke of Edinburgh's Prize for Elegant Design and a record 11 De Beers Diamonds International Awards (the 'Oscars' of the jewelry world). His business empire spanned the globe. Yet his name fell prey to time and changing tastes, and today, with the exception of jewelry snobs, dealers and auction houses, he is all but forgotten. This book illuminates the career of a man who participated in a golden age of British creativity. It contains a dazzling array of never-before-seen sketches, designs and photographs from the Grima archives and includes a sparkling preface from the doyen of jewelry

experts, TV celebrity Geoffrey Munn. A must-buy publication for art and jewelry lovers alike.

A Man and His Watch Moonwatch Only

•A fantastic reference work for the novice or the seasoned watch enthusiast. Fully illustrated with 470 color photographs. Brand-Agnostic. Features a vast array of timepieces from over 90 manufacturers. Despite the functional obsolescence of the mechanical wristwatch (our phones and computers tell more accurate time) the early 21st Century has seen a boom in the development, production, and appreciation of all things horological. Whether it is presented to the collector as an alternative investment, as a feat of micro-mechanical technology, or as a showcase of artisanal mastery, the mechanical wristwatch has never possessed more forms, functions or facets than it does today. The Wristwatch Handbook is written from the epicenter of a renaissance, a place in time between the Quartz revolution and the rise of the smart device - where the mechanical wristwatch is the antidote to the microprocessor and the permanent buzz of your inbox. From the multi-axis

tourbillon, to the split-second chronograph, to the sidereal sky chart, The Wristwatch Handbook covers it all and does so with more than 470 rich illustrations from over 90 of the World's leading brands. The book is separated into two sections. The first section provides the reader with a comprehensive understanding of the mechanical movement. Its chapters explore power, transmission, distribution and regulation illustrating the basic concepts before considering the innovation and complexity that takes place further toward the cutting edge. From the fifty-day power reserve, to the constant force mechanism, and the 1,000Hz mechanical escapement, section 1 will allow the reader to understand and appreciate what is happening beneath the dial of their watch. Section two allows the reader to take this understanding and apply it to the vast range of complications (functions) that exist in modern horology. Each chapter showcases a distinct category of complication. For example, the regatta timer, pulsometer, and monopusher chronograph join a host of others in a chapter entitled 'Recording Lapses of Time'; The power reserve indicator, dynamograph, and crown

position indicator are featured in a chapter for 'Power and Performance Indication'; The moon phase indicator, annual calendar, and planetarium can be found in the 'Astronomical Complications' chapter. Once the functional categories are exhausted, the final three chapters explore whimsical complications that have little regard for practical function, novelty time indication, and the 'super-complicated' watch - a rare breed of timepiece that houses an intimidating host of complications featured throughout the book. Upon completion of *The Wristwatch Handbook* the reader will be able to identify even the most exotic complication from across the room, and be able to share their appreciation and understanding of what makes it so useful and compelling. *The Wristwatch Handbook* is "brand agnostic", using only those watches that most aptly illustrate the given subject-matter. As a consequence the book places equal emphasis on the classic and the cutting edge, on watches produced in large volume or exclusive runs, by industry-leading technology or at the hand of a master. In doing so the book provides an unparalleled range of watches from over 90 brands, allowing

the reader to determine for themselves which brands, complications, and styles they will build their collection from.

"I've paged through stacks of books on the history of watches. . . . But I hadn't come across a book that actually moved me until I picked up *A Man and His Watch*. The volume is filled with heartfelt stories." —T: *The New York Times Style Magazine*

Paul Newman wore his Rolex Daytona every single day for 35 years until his death in 2008. The iconic timepiece, probably the single most sought-after watch in the world, is now in the possession of his daughter Clea, who wears it every day in his memory. Franklin Roosevelt wore an elegant gold Tiffany watch, gifted to him by a friend on his birthday, to the famous Yalta Conference where he shook the hands of Joseph Stalin and Winston Churchill. JFK's Omega worn to his presidential inauguration, Ralph Lauren's watch purchased from Andy Warhol's personal collection, Sir Edmund Hillary's Rolex worn during the first-ever summit of Mt. Everest . . . these and many more compose the stories of the world's most coveted watches captured in *A Man and His Watch*. Matthew Hranek, a watch collector and NYC men's style fixture, has traveled the world conducting firsthand interviews and diving into exclusive collections to gather the never-before-told stories of 76 watches, completed with stunning original photography of every single piece. Through these intimate accounts and Hranek's storytelling, the watches become more than just timepieces and status symbols; they represent historical moments, pioneering achievements, heirlooms, family mementos, gifts of affection, and lifelong

friendships.

An inside look at the world's first conceptual and artistic watchmaking laboratory, from its processes to its inspirations The MB&F adventure starts in Geneva in 2005. After 15 years working for prestigious names in the world of fine watchmaking, Maximilian B ü sser launched Maximilian B ü sser & Friends (MB&F), the world's very first conceptual and artistic watchmaking laboratory. MB&F designs and manufactures limited series of radical, innovative, and extraordinary watches that are always the result of a close collaboration between exceptional independent professional watchmakers and the overflowing imagination of the brand's founder. MBF reinterprets horological tradition into three-dimensional mechanical sculptures that tell time. From the launch of the first Horological Machine in 2007, followed by the Legacy Machine in 2011, to the most recent creations, MB&F's watches and clocks are genuine kinetic sculptures. Beyond a mere reasoned catalogue, MB&F: The First Fifteen Years invites the reader to dive into the process of creating and fabricating these incredible watches. Brimming with technical prowess, surrealist inspirations, and science fiction, this book is an invitation to discover the watchmaking of the future.

- In this work, the authors have applied the rigorous, innovative methodology that contributed to the success of their previous publication, Moonwatch Only, ISBN 9782940506170, and which now represents the signature of the 'ONLY' books The highly evocative Flightmaster name was first mentioned by OMEGA in 1956-57, but it was not until the late 1960s that it was used to designate an incomparable watch, initially intended for aircraft pilots. At the time, it was regarded as the watch industry equivalent of the Swiss army knife, meaning the ultimate professional instrument. The aesthetically and technically remarkable

OMEGA Flightmaster symbolizes a period rich in technological and design breakthroughs.

Produced over a short period and relatively little known until now, it nonetheless enjoyed exceptional development and an outstanding destiny, notably on the wrist of Soviet cosmonauts in the 1970s. Revealing the entirely unknown and remarkably rich story for the first time, and based on their own methodology, the authors of the successful Moonwatch Only book dedicated to the OMEGA Speedmaster, provide a comprehensive account of the many variations and evolutions of the different Flightmaster models. The result is an essential reference work for all passionate brand enthusiasts and collectors.

Watches are worthwhile investments. Of

course not all watches, but only certain ones, special ones, selected ones. But not so special that you could not just buy them. At least some of them. How to recognize what in this form of investment pays off, this book is all about. Like all luxury goods, a watch must be rare and in demand to rise in value. Therefore, all consumer goods decrease in value – but not luxury goods: Luxury goods are rare, not available, scarce, durable and timeless, thus stable in value and therefore in demand. This book will give you all the details of investing in luxury watches in a nutshell and focused on the crucial information, so once you've read it, you immediately can go and buy your first watch as an investment.

This is a bold book by James Altucher because he not only gives you a new map for the new financial landscape, but he also has skin in the game. This is the first financial book in which the author REVEALS HOW HE, PERSONALLY, MAKES HIS OWN MONEY. We are living in an epic period of change, danger and opportunity. The economy is crashing and booming every few years. People are getting fired and replaced by computers and Chinese workers. The stock market crashes with regularity. Every "fix" from the government makes things worse.

The Old World has been demolished... and people are desperate for answers. James Altucher's "The Choose Yourself Guide To Wealth" contains those answers. This is the field guide to the "New World" we live in. You can play by the old rules and get left behind, or you can use these new ideas and become wealthy. This is not a book for the faint of heart. Read at your own risk, because sometimes the truth is hard to take. But for those who are ready to hear, James provides an updated map of the new territory for generating wealth and freedom. This book is the eye-opener of the century, it is the guide to building, keeping, and investing your money and breaking free from the chains of rusted, old thinking.

- The first complete book dedicated to one of the most desirable chronographs of the 1960s, Chronomaster Aviator Sea Diver by NIVADA & CROTON Chronomaster Aviator Sea Diver: this singular name belongs to one of the most original professional watches of the 1960s, combining an unparalleled number of functions with a timeless design. Created in 1961, this chronograph was produced for around ten years under several brand names, through a partnership between the Swiss company NIVADA SA and the American firm CROTON WATCH CO. This led to some of its dials bearing probably the most complicated name in watchmaking history: CROTON NIVADA GRENCHEN Chronomaster Aviator Sea Diver. Thanks to the authors' trademark rigorous methodology, the signature of the 'ONLY' reference works, this book reveals the incredible diversity of the Chronomaster models. It is intended both as an initiation for connoisseurs of exceptional watches and as a reference guide for collectors. This legendary watch will doubtless thus regain the place it deserves among the most desirable 1960s chronographs. Also available in the series: Moonwatch Only ISBN
