A tile cutter with a diamond blade works to smooth the edges of glass.

I bought one at a garage sale to cut slate tiles and found it also works to finish glass edges. Mine has a way to tilt the blade also. I first lightly run the glass edges at a 90 degree angle against the diamond saw blade, IE, with the blade straight up and down.

[Residential Glass Edge Options | Binswanger Glass](#)

Glass Edge is one of the area's leading commercial glazing

contractors. Whether you're looking for assistance with storefronts,

skylights, aluminum windows, glazing, curtain wall, or sun shades, you

can count on us to get the job done right. We pride ourselves with

thinking outside the box and taking your ideas to new and exciting

levels!

Draw the wheel along the glass from edge to edge only once in a

slow, even motion. At the far edge of the cut, roll the cutter

gently over the edge of the glass, easing up a bit so it doesn't

jam onto the cutting surface. There should be a light scratching

or crackling sound indicating the wheel is marking the glass.
