"In Culinary Artistry...Dornenburg and Page provide food and flavor pairings as a kind of steppingstone for the recipe-dependent cook...Their hope is that once you know the scales, you will be able to compose a symphony." --Molly O'Neil in The New York Times Magazine. For anyone who believes in the potential for artistry in the realm of food, Culinary Artistry is a must-read. This is the first book to examine the creative process of culinary composition as it explores the intersection of food, imagination, and taste. Through interviews with more than 30 of America's leading chefs including Rick Bayless, Daniel Boulud, Gray Kunz, Jean-Louis Palladin, Jeremiah Tower, and Alice Waters the authors reveal what defines "culinary artists," how and where they find their inspiration, and how they translate that vision to the plate. Through recipes and reminiscences, chefs discuss how they select and pair ingredients, and how flavors are combined into

dishes, dishes into menus, and menus into bodies of work that eventually comprise their cuisines.

Move vegetables into the center of your plate from the realm of sides and salads with this vegetable-cooking bible of more than 250 full-flavor recipes, from James Beard and IACP award winner Christopher Kimball's Milk Street. Chili-spiked carrots. Skillet-charred Brussels sprouts. Mashed potatoes brightened with harissa and pistachios. These are just three ways to put vegetables in the center of your plate. Here in the U.S., meat is cheap and has been in the center of the plate for centuries. The rest of the world, however, knows how to approach vegetables, grains and beans not only with respect but with a fresh, lively approach, one that transforms the ordinary into the extraordinary. To get a vegetable education, we traveled to Athens to learn how winter vegetable stews could taste light and bright, not hearty and heavy. In Cairo, we tasted eggplant and potatoes that punched up flavor with bold pops of texture from whole spices. And in Puglia, Italy, we had a revelatory bite of zucchini enriched by ricotta cheese and lemon. This is a world of high-heat roasts, unctuous braises, drizzles of honey, and stir-fries aromatic with ginger and garlic. And with 250 recipes, the possibilities are nearly endless: A simple head of cauliflower can become Cauliflower Shawarma, Sichuan Dry-Fried Cauliflower, or Curried Cauliflower Rice with Peas and Cashews Humble cabbage travels the world to become Butter-

Roasted Cabbage with Citrus, Hazelnuts and Mustard; Hot and Sour Stir-Fried Cabbage; and Thai-Style Coleslaw with Mint and Cilantro Mushrooms are transformed into Stir-Fried Mushrooms with Asparagus and Lemon Grass or Miso Soup with Mixed Vegetables and Tofu and greens get the Milk Street treatment in dishes like Pozole with Collard Greens; Hot Oil-Flashed Chard with Ginger, Scallions and Chili; and Persian-Style Swiss Chard and Herb Omelet It ' s never too late to get your vegetable PhD.

"I recommend this book highly to everyone." --Deepak Chopra, M.D. This special updated version of the New York Times-bestseller, Kitchen Table Wisdom, addresses the same spiritual issues that made the original a bestseller: suffering, meaning, love, faith, and miracles. "Despite the awesome powers of technology, many of us still do not live very well," says Dr. Rachel Remen. "We may need to listen to one another's stories again." Dr. Remen, whose unique perspective on healing comes from her background as a physician, a professor of medicine, a therapist, and a long-term survivor of chronic illness, invites us to listen from the soul. This remarkable collection of true stories draws on the concept of "kitchen table wisdom"-- the human tradition of shared experience that shows us life in all its power and mystery and reminds us that the things we cannot measure may be the things that ultimately sustain and enrich our lives.
