In 1967 Milton studies was divided into two camps: one claiming (per Blake and Shelley) that Milton was of the devil's party, the other claiming (per Addison and C. S. Lewis) that the poet's sympathies were obviously with God and his loyal angels. Fish has reconciled the two camps by subsuming their claims in a single overarching thesis.

the subject English Language and Literature Studies - Literature, grade: 1,3, Ruhr-University of Bochum (Anglistik), language: English, abstract: The sonnet "London, 1802" by William Wordsworth, first published in 1807 (Wordsworth 64), deals with the speaker's criticism of the political, religious and socioeconomic state of England at the beginning of the 19th century which is juxtaposed by an idealization of the English poet John Milton as a writer and a member of English society in the 17th century. "London 1802" is part of a group of poems that are generally referred to as Wordsworth's "Sonnets on Independence and Liberty". Like other sonnets of this group it illustrates "Wordsworth's advance from the poet of rapturous impulse to the poet of duty and fortitude" and thus, his turn towards a reflection on political and socioeconomic issues of his contemporary time in his poetry (130). In this

regard Wordsworth uses form and content in "London, 1802" to express this criticism and to call for change in the English society of his time. In terms of form, the poem can be regarded as a Petrarchan sonnet. As such, the form of "London, 1802" already establishes an intertextual reference to John Milton who also often uses the pattern of the Petrarchan sonnet in his poems like in "On his Blindness". Sarker argues that in particular Wordsworth's sonnets reflect his literary inspiration by John Milton's style as a writer. Wordsworth's sonnet contains 14 lines and is subdivided into an octave, which is consisting of two quatrains (l. 1-4; l. 5-8), and a sestet (l. 9-14). The rhyme scheme of the poem also matches the form of the Petrarchan sonnet. While the two quatrains have an embracing rhyme (a b b a; a b b a) and corresponding cadenzas (female, male, male, female; female, male, male, female) the sestet rhymes "c d d e c e" and

each of the lines ends with a male cadenza. The rhymes and the cadenzas structure the poem and underline its thematic subdivision into two different sense units: a negative description of contemporary England in the first (l. 1-8) and the idealization of John Milton as a fictive potential liberator of England in the second sense unit (l. 9-14).

The Lives of the Most Eminent English Poets W. Norton & Company
Gorgeous, spirited and extravagantly rich, Cora Cash is the closest thing 1890s New York society has to a princess. Her masquerade ball is the prelude to a campaign that will see her mother whisk Cora to Europe, where Mrs Cash wants nothing less than a title for her daughter. In England, impoverished blue-bloods are queueing up for introductions to American heiresses, overlooking the sometimes lowly origins of their fortunes. Cora makes a dazzling impression, but the English aristocracy is a realm fraught with arcane rules and pitfalls, and there are those less than eager to welcome a wealthy outsider...

Treacherously lush or alluringly bleak, these poems reframe their subjects as landscape, as legacy—a bereavement, an intimacy, a racial identity, a pubescence, a culpability, a diagnosis.

With a surveyor's keenest tools, Youn marks the boundaries of the given, what we have been allotted: acreage that has been ruthlessly fenced, previously tenanted, ploughed and harvested, enriched and depleted. In the title sequence, the poet gleans a second crop from the field of Milton's great sonnet on his blindness: a lyric meditation on her barrenness, on her own desire—her own struggle—to conceive a child. What happens when the transformative imagination comes up against the limits of unalterable fact?

Care and women's emancipation have often been seen as opposed. Politicians have begun to look again at the issue of care in the context of new reforms in the welfare state, health care policies and family law. Using concrete examples taken from parental rights cases, health care education and the public health sector. Using concrete examples taken from the practice and discourse of care, those found in parental

rights issues, health care education, the family and in the public health sector, Sevenhuijsen argues for reevaluation of care from a feminist perspective.

When a man receives a promotion and a raise, he finds himself forced to face an uncomfortable situation that he has avoided all his life: visiting a bank and opening a bank account. "My Financial Career" is representative of author Stephen Leacock's writing style in which he pokes fun at social absurdities and irrational behaviour. This short story was adapted into a short animated film in 1962, directed by Gerald Potterton. The film won the award for Best Animated Short at the San Francisco International Film Festival that year and was nominated for Best Animated Short at the 36th Academy Awards in 1964.

Tearle reads that most famous example of the genre in comparison with lesser known long poems, such as Hope Mirrlees's Paris: A Poem, Richard Aldington's A Fool in the Forest and Nancy Cunard's Parallax. As well as presenting a new history of this neglected genre, the book examines the ways in which the modernist long poem represented the seminal literary form for grappling with the crises of European modernity in the wake of World War I.

This reading of Milton juxtaposes the poet's theology and Freud's account of the Oedipus complex in ways that yield both new understanding of Milton and a model for psychoanalytic interpretation of literature. The book ranges

widely through the art and life of Milton, including extensive discussions of his theological irregularities and the significance, medical and symbolic, he assigned to his blindness. Kerrigan analyzes the oedipal aspect of Milton's religion; examines the nature of the Miltonic godhead; studies Milton's analogies linking human, angelic, and cosmic bodies; and explores Milton's symbolism of home. In a commanding demonstration, Kerrigan delineates how the great epic and the psyche of its author bestow meaning on each other.

Stanley Fish's *Surprised by Sin*,
first published in 1967, set a

new standard for Milton criticism and established its author as one of the world's preeminent Milton scholars. The lifelong engagement begun in that work culminates in this book, the magnum opus of a formidable critic and the definitive statement on Milton for our time. How Milton works "from the inside out" is the foremost concern of Fish's book, which explores the radical effect of Milton's theological convictions on his poetry and prose. For Milton the value of a poem or of any other production derives from the inner worth of its author and not from any external measure of excellence or heroism. Milton's aesthetic, says Fish, is an "aesthetic of testimony": every action, whether verbal or physical, is or should be the action of holding fast to a single saving commitment against the allure of plot, narrative, representation, signs, drama--anything that might be construed as an illegitimate supplement to divine truth. Much of the energy of Milton's writing, according to Fish, comes from the effort to maintain his faith against these temptations, temptations which in any other aesthetic would be seen as the very essence of poetic value. Encountering the great poet on his own terms, engaging his equally distinguished admirers and detractors, this book moves a

300-year debate about the significance of Milton's verse to a new level.
