The Mark of Cain fleshes out a history of conversations that contributed to Germany's coming to terms with a guilty past. Katharina von Kellenbach draws on letters exchanged between clergy and Nazi perpetrators, written notes of prison chaplains, memoirs, sermons, and prison publications to illuminate the moral and spiritual struggles of perpetrators after World War II. These documents provide intimate insights into the self-reflection and self-perception of perpetrators. As Germany looks back on more than sixty years of passionate debate

about political, personal and legal guilt, its ongoing engagement with the legacy of perpetration has transformed German culture and politics. The willingness to forgive and forget displayed by the father in the parable of the Prodigal Son became the paradigm central to Germany's rehabilitation and reintegration of Nazi perpetrators. The problem with Luke's parable in this context is that, unlike the son in the parable, perpetrators did not ask for forgiveness. Most agents of state crimes felt innocent. Von Kellenbach proposes the story of the mark of Cain as a counter narrative. In contrast to the Prodigal Son, who is quickly forgiven and welcomed back into the house of the father, the fratricidal Cain is charged to rebuild his life on the basis of open communication about the past. The story of the Prodigal Son equates forgiveness with forgetting; Cain's story links redemption with remembrance and suggests a

strategy of critical engagement with perpetrators.

The powerful, disturbing history of Nazi Europe by Mark Mazower, one of Britain's leading historians and bestselling author of *Dark Continent* and *Governing the World Hitler's Empire* charts the landscape of the Nazi imperial imagination - from those economists who dreamed of turning Europe into a huge market for German business, to Hitler's own plans for new transcontinental motorways passing over the ethnically cleansed Russian steppe, and earnest internal SS discussions of political theory, dictatorship and the rule of law. Above all, this chilling account shows what happened as these ideas met reality. After their early battlefield triumphs, the bankruptcy of the Nazis' political vision for Europe became all too clear: their allies bailed out, their New Order collapsed in military failure, and they left behind a continent corrupted by collaboration, impoverished by looting and exploitation, and grieving the victims of war and genocide.

About the author: Mark Mazower is Ira D. Wallach Professor of World Order Studies and Professor of History at Columbia University. He is the author of *Hitler's Greece: The Experience of Occupation, 1941-44*, *Dark Continent: Europe's Twentieth Century*, *The Balkans: A Short History* (which won the Wolfson Prize for History), *Salonica: City of Ghosts* (which won both the Duff Cooper Prize and the Runciman Award) and *Governing the World: The History of an Idea*. He has also taught at Birkbeck College, University of London, Sussex University and Princeton. He lives in New York.

A bold new accounting of the great social and political upheavals that enveloped Europe between 1914 and 1945—from the Russian Revolution through the Second World War. In *Lenin, Stalin, and Hitler*, acclaimed historian Robert Gellately

focuses on the dominant powers of the time, the Soviet Union and Nazi Germany, but also analyzes the catastrophe of those years in an effort to uncover its political and ideological nature. Arguing that the tragedies endured by Europe were inextricably linked through the dictatorships of Lenin, Stalin, and Hitler, Gellately explains how the pursuit of their “utopian” ideals turned into dystopian nightmares. Dismantling the myth of Lenin as a relatively benevolent precursor to Hitler and Stalin and contrasting the divergent ways that Hitler and Stalin achieved their calamitous goals, Gellately creates in *Lenin, Stalin, and Hitler* a vital analysis of a critical period in modern history.

On Hitler's Mountain Houghton Mifflin Harcourt

A Boston Globe Best Book of 2015 A Washington Post Notable Nonfiction Pick of 2015 Magisterial in scope, this dual biography examines two complex lives that began alike but ended on opposite sides of the century's greatest conflict. Marlene Dietrich and Leni Riefenstahl, born less than a year apart, lived so close to each other that Riefenstahl could see into Dietrich's Berlin apartment. Coming of age at the dawn of the Weimar Republic, both sought fame in Germany's burgeoning motion picture industry. While Dietrich's depiction of Lola-Lola in *The Blue Angel* catapulted her to Hollywood stardom, Riefenstahl—who missed out on the part—insinuated herself into Hitler's inner circle to direct groundbreaking if infamous Nazi propaganda films, like *Triumph of the Will*. Dietrich, who toured tirelessly with the USO, could never truly go home again; Riefenstahl could never shake her Nazi past. Acclaimed German historian Karin Wieland examines these lives within the vicious crosscurrents of a turbulent century, evoking

piercing insights into "the modern era ' s most difficult questions, about illusion and mass intoxication, art and truth, courage and capitulation" (New Yorker).

The German Campaign in Russia ?????????? ?????? ??????????

Of American and German parentage, Ernst Hanfstaengl graduated from Harvard and ran the family business in New York for a dozen years before returning to Germany in 1921. By chance he heard a then little-known Adolf Hitler speaking in a Munich beer hall and, mesmerized by his extraordinary oratorical power, was convinced the man would some day come to power. As Hitler's fanatical theories and ideas hardened, however, he surrounded himself with rabid extremists such as Goering, Hess, and Goebbels, and Hanfstaengl became estranged from him. But with the Nazi's major unexpected political triumph in 1930, Hitler became a national figure, and he invited Hanfstaengl to be his foreign press secretary. It is from this unique insider's position that the author provides a vivid, intimate view of Hitler—with his neuroses, repressions, and growing megalomania—over the next several years. In 1937, four years after Hitler came to power, relations between Hanfstaengl and the Nazis had deteriorated to such a degree that he was forced to flee for his life, escaping to Switzerland. Here is a portrait of Hitler as you've rarely seen him.

"I was born in southern China in 1962, in the tiny town of Yellow Stone. They called it the Year of Great Starvation." In 1962, as millions of Chinese citizens were gripped by Mao Zedong's Cultural Revolution and the Red Guards enforced a brutal regime of communism, a boy was born to a poor family in southern China. This family—the Chens—had once been respected landlords in the village of Yellow Stone, but now they were among the least fortunate families in the country, despised for their "capitalist" past. Grandpa Chen couldn't leave the house for fear of being beaten to death; the children were spit upon in the street; and their father was regularly hauled off to labor camps, leaving the family of eight without a breadwinner. Da Chen, the youngest child, seemed destined for a life of poverty, shame, and hunger. But winning humor and an indomitable spirit can be found in the most unexpected places. *Colors of the Mountain* is a story of triumph, a memoir of a boyhood full of spunk, mischief, and love. The young Da Chen is part Horatio Alger, part Holden Caulfield; he befriends a gang of young hoodlums as well as the elegant, elderly Chinese Baptist woman who teaches him English and opens the door to a

new life. Chen's remarkable story is full of unforgettable scenes of rural Chinese life: feasting on oysters and fried peanuts on New Year's Day, studying alongside classmates who wear red armbands and quote Mao, and playing and working in the peaceful rice fields near his village. Da Chen's story is both captivating and endearing, filled with the universal human quality that distinguishes the very best memoirs. It proves once again that the concerns of childhood transcend time and place.

Irmgard Hunt was born into Nazi Germany in 1934 and brought up in the Bavarian village of Berchtesgaden, just outside the fence that surrounded Hitler's alpine retreat and headquarters. On Hitler's Mountain is her account of a childhood under the Third Reich as the daughter of low-level Party members. As a model Aryan toddler, she was photographed sitting on Hitler's knee, and attended school with the children of Albert Speer and Fritz Sauckel. Like many ordinary Germans her parents considered themselves to be moral and honourable: her father was a porcelain artist (at the workshop that provided Hitler with his dinner service) and was called up to serve in France. When he was

killed early on in the war Irmgard's mother was left to bring up her two daughters in extreme deprivation. On Hitler's Mountain accesses a period and location in history that is becomingly increasingly remote to us today (Hunt was born five years later than Anne Frank)

When World War II broke out in Europe, the American army had no specialized division of mountain soldiers. But in the winter of 1939-40, after a tiny band of Finnish mountain troops brought the invading Soviet army to its

knees, an amateur skier named Charles Minot "Minnie" Dole convinced the United States Army to let him recruit an extraordinary assortment of European expatriates, wealthy ski bums, mountaineers, and thrill-seekers and form them into a unique band of Alpine soldiers. These men endured nearly three years of grueling training in the Colorado Rockies and in the process set new standards for both soldiering and mountaineering. The newly forged 10th Mountain Division finally faced combat in the winter of 1945, in Italy's Apennine Mountains, against the seemingly unbreakable German fortifications north of the Gothic Line. There, they planned and executed what is still regarded as the most daring series of nighttime mountain attacks in U.S. military history, taking Mount Belvedere and the sheer, treacherous face of Riva Ridge to smash the linchpin of the German army's lines. Drawing on unique cooperation from veterans of the 10th Mountain Division and a vast archive of unpublished letters and documents, *The Last Ridge* is written with enormous warmth, energy, and honesty. This is one of the most captivating stories of World War II, a blend of *Band of Brothers* and *Into Thin Air*. It is a story of young men asked to do the impossible, and succeeding.

A laboratory for competing visions of modernity, the Weimar Republic (1918-1933) continues to haunt the imagination of the twentieth century. Its political and cultural lessons retain uncanny relevance for all who seek to understand the tensions and possibilities of our age. The

Weimar Republic Sourcebook represents the most comprehensive documentation of Weimar culture, history, and politics assembled in any language. It invites a wide community of readers to discover the richness and complexity of the turbulent years in Germany before Hitler's rise to power. Drawing from such primary sources as magazines, newspapers, manifestoes, and official documents (many unknown even to specialists and most never before available in English), this book challenges the traditional boundaries between politics, culture, and social life. Its thirty chapters explore Germany's complex relationship to democracy, ideologies of "reactionary modernism," the rise of the "New Woman," Bauhaus architecture, the impact of mass media, the literary life, the tradition of cabaret and urban entertainment, and the situation of Jews, intellectuals, and workers before and during the emergence of fascism. While devoting much attention to the Republic's varied artistic and intellectual achievements (the Frankfurt School, political theater, twelve-tone music, cultural criticism, photomontage, and urban planning), the book is unique for its inclusion of many lesser-known materials on popular culture, consumerism, body culture, drugs, criminality, and sexuality; it also contains a timetable of major political events, an extensive bibliography, and capsule biographies. This will be a major resource and reference work for students and scholars in history; art; architecture; literature; social and political thought; and cultural, film, German, and women's

studies.

In 1925, Adolf Hitler chose a remote mountain area in the south-east corner of Germany as his home. Hitler settled in a small house on the Obersalzberg, a district overlooking the picturesque town of Berchtesgaden in the Bavarian Alps. After Hitler became Chancellor of Germany in 1933, the Obersalzberg area was transformed into the southern seat of power for the Nazi Party. Eventually, the locale became a complex of houses, barracks and command posts for the Nazi hierarchy, including the famous Eagle's Nest, and the mountain was honeycombed with tunnels and air raid shelters. A bombing attack at the end of the Second World War damaged many of the buildings and some were later torn down, but several of the ruins remain today, hidden in woods and overgrown. Hitler's Berchtesgaden: A Guide to Third Reich Sites in the Berchtesgaden and Obersalzberg Area will help history-minded explorers find these largely-forgotten sites, both on the Obersalzberg and in Berchtesgaden and the surrounding area, with detailed directions for driving and walking tours. The names Elizabeth Eckford and Hazel Bryan Massery may not be well known, but the image of them from September 1957 surely is: a black high school girl, dressed in white, walking stoically in front of Little Rock Central High School, and a white girl standing directly behind her, face twisted in hate, screaming racial epithets. This famous photograph captures the full anguish of desegregation--in Little Rock and throughout the South--and an epic moment in the civil rights movement. In this gripping book, David Margolick tells the remarkable story of two separate lives unexpectedly braided together. He explores how the haunting picture of Elizabeth and Hazel came to be taken, its significance in the wider world, and why, for the next half-century, neither woman has ever escaped from its long shadow. He recounts Elizabeth's struggle to overcome the trauma of her hate-filled school experience, and Hazel's long efforts to atone for a fateful, horrible mistake. The book follows the painful journey of the two as

they progress from apology to forgiveness to reconciliation and, amazingly, to friendship. This friendship foundered, then collapsed--perhaps inevitably--over the same fissures and misunderstandings that continue to permeate American race relations more than half a century after the unforgettable photograph at Little Rock. And yet, as Margolick explains, a bond between Elizabeth and Hazel, silent but complex, endures.
