On Moral Fiction is a collection of essays by the American novelist John Gardner published in 1978. (ISBN 0-465-05225-8) In this work, Gardner attacks what he sees as contemporary literature's lack of morality, which he calls the highest purpose of art and which he defines in the book. According to Gardner, morality is not an arbitrary social construct, but an eternal truth, taking on different forms but not essentially changing through the ages.

Values he believed innate in the human animal, values necessary for our advancement.
