The Mirror of Relationship Harper Collins
'The material contained in this volume was originally presented in the form of talks to students, teachers and parents in India, but its keen penetration and lucid simplicity will be deeply meaningful to thoughtful people everywhere, of all ages, and in every walk of life. Krishnamurti examines with characteristic objectivity and insight the expressions of what we are pleased to call our culture, our education, religion,

politics and tradition; and he throws much light on such basic emotions as ambition, greed and envy, the desire for security and the lust for power - all of which he shows to be deteriorating factors in human society.' From the Editor's Note 'Krishnamurti's observations and explorations of modern man's estate are penetrating and profound, yet given with a disarming simplicity and directness. To listen to him or to read his thoughts is to face oneself and the world with an astonishing morning freshness.' Anne Marrow Lindbergh

In 1950, Krishnamurti said: "If we are concerned with our own lives, if we understand our relationship with others, we will have created a new society; otherwise, we will but

perpetuate the present chaotic mess and confusion." Providing a far-reaching basis for solving many of the world's crises, *On Relationship* brings together Krishnamurti's most essential teachings on the individual's relationship to other people and institutions. The renowned teacher makes clear that the way we handle personal crises and relationships links us to the problems of all people and has a larger, global meaning. Ending the causes of war, for instance, cannot truly begin until we perform simple, but often ignored, tasks such as reconciling with estranged family members, keeping our homes in order, and respecting others.

This book features excerpts on the title's theme from Krishnamurti's talks and discussions held between 1933 and 1967. They have proven helpful in dialogues and for use in high school and college classrooms. There are talks on marriage, love, relationship, and sex. Krishnamurti states, "sex becomes an extraordinary, difficult, and complex problem so long as you do not understand the mind." Krishnamurti asks the reader to investigate essential questions: How can I live with another without conflict? Why are relationships difficult? What is awareness in relationship? Do I really know what love is? What does it mean to learn in a relationship? What is the role of thought and memory in relating to another? "There is no escape from relationship. In that relationship, which is the mirror in which we can see ourselves, we can discover what we are, our reactions, our prejudices, our fears, depression, anxieties, loneliness, sorrow, pain, grief. We can also discover whether we love or there is no such thing as love. So, we will examine this question of relationship because that is the basis of love." -J. Krishnamurti Madras, India, 1982 "Why does the mind think about sex at all? Why? Why has it become a central issue in your life? Sex has become an extraordinary, difficult, and complex problem so long as you do not understand the mind, which thinks about the problem. The act itself can

never be a problem but thought about the act creates the problem." -J. Krishnamurti, *The First and Last Freedom*
Krishnamurti's Notebook Castrovilli Giuseppe
First in the series on Education and Society in South Asia, this volume focuses on the educational thought of a world-renowned teacher, thinker, and writer—Jiddu Krishnamurti (1895–1986). This edited volume examines Krishnamurti's work and explores his contemporary relevance in educational endeavours and practices in different parts of the country. The contributors to the volume argue that Krishnamurti sought to change the way education is perceived, from the mere teaching of curriculum into a life-changing experience of learning from relationships and life. Through a range of essays that address diverse issues and themes, the contributors seek to uncover the practices and processes at some of the institutions that Krishnamurti established in different parts of rural and urban India. These include essays on curriculum building, inclusive education, pedagogy, debates on educational philosophy and practice, and teacher education. They help bring out the barriers and breakthroughs in the educational processes as practiced in these schools and how they may further be applied to other educational institutions.

Krishnamurti stressed that relationship is the mirror in which we see ourselves as we are. "Topics discussed include the nature of image-making, pleasure and desire, sex, chastity, marriage, and love--When sexual feeling is born out of pleasure it is lust. If it is born out of love it is not lust, even though great delight may then be present."

When Krishnamurti's *Notebook* first became available in 1976, it was soon realized that it was a spiritually unique document giving his perceptions and

experiences and describing his states of consciousness. It is a kind of diary but one that is little concerned with the day to day process of living, though very much aware of the natural world.

J. Krishnamurti, one of the most beloved and renowned religious teachers of the twentieth century, often taught his students that they must look at the state of the world, with all its violence and conflict, if they are ever to understand themselves. To turn away from world events was for him not to be alive to what life has to teach. Facing a World in Crisis presents a selection of talks that Krishnamurti gave on how to live in and respond to troubling and uncertain times. His message of personal responsibility and the importance of connecting with the broader world is presented in a nonsectarian and nonpolitical way. Direct and ultimately life-affirming, Facing a World in Crisis will resonate with readers today who are looking for a new way to understand and find hope in challenging times.

On Relationship Harper Collins

On Fear is a collection of Krishnamurti's most profound observations and thoughts on how fear and dependence affect our lives and prevent us from seeing our true selves. Among the many questions Krishnamurti addresses in these remarkable teachings are: How can a mind that is afraid love? And what can a mind that depends on attachment know of joy? He points out that the voice of fear makes the mind dull and insensitive, and argues that the roots of hidden fears, which limit us and from which we constantly seek escape, cannot be discovered through analysis of the past. Questioning whether the exercise of will can eliminate the debilitating effects of fear, he suggests, instead, that only a fundamental realization of the root of all fear can free our minds.

Life Ahead presents lessons that move far beyond the traditional forms of education taught in most schools and colleges. Drawn from transcripts of talks given to Indian students, the book covers a wide range of universal topics. In short, accessible chapters, Krishnamurti explores the danger of competition, the value of solitude, the need to understand both the conscious and the unconscious mind, and the critical difference between concentration and attention, and between knowledge and learning. Krishnamurti exposes the roots of fear and eradicates deeply entrenched habits of tradition, limitation, and prejudice. The life he holds forth requires a complete change of thought, even a revolution, one that begins "not with theory and ideation," he writes, "but with a radical transformation in the mind itself." He explains how such transformation occurs only through an education that concentrates on the total development of the human being, an education carefully described in this simple yet powerful book.
