The Year of Magical Thinking: The Play A&C Black

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope." —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming "There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom." —David Roberts, Vox "This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook." —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

In this dramatic adaptation of her award-winning, bestselling memoir, Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. "This happened on December 30, 2003. That may seem a while ago but it won't when it happens to you . . ." Michiko Kakutani in The New York Times called the memoir that was the basis for the play, "an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage." The first theatrical production of The Year of Magical Thinking opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the

coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, The Passenger.

The Greatest Gift Simon and Schuster

One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise – and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders – as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped – sometimes unwittingly and sometimes deliberately – to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.

In the Balkans, preparing a thrust northwards into Central Europe to block the Russians and Austrians, a horde of Muslim mercenaries is gathering. It is this gold that Jack Aubrey and Stephen Maturin must at all costs intercept. The fate of Europe hinges on their desperate mission. "The Hundred Days is certain to delight O'Brian's fans, for whom happiness is an unending stream of Aubrey/Maturin books....[It] is a fine novel that stands proudly on the shelf with the others."—Los Angeles Times

Red Rising Shambhala Publications

A brilliant, kaleidoscopic exploration of soccer—and the passion, hopes, rivalries, superstitions, and global solidarity it inspires—from award-winning author and Mexico's leading sports journalist, Juan Villoro. On a planet where FIFA has more members than the United Nations and the World Cup is watched by more than three billion people, football is more than just a game. As revered author Juan Villoro argues in this passionate and compulsively readable tribute to the world's favorite sport, football may be the most effective catalyst for panglobal unity at the time when we need it most. (Following global consensus, Villoro uses "football" rather than "soccer" in the book.) What was the greatest goal of all time? Why do the Hungarians have a more philosophical sense of defeat than the Mexicans? Do the dead play football? In essays ranging from incisive and irreverent portraits of Maradona, Messi, Ronaldo, Pelé, Zidane, and many more giants of the game to entertaining explorations of left-footedness and the number 10, Juan Villoro dissects the pleasure and pain of football fandom. *God Is Round* is a book for both fanatics and neophytes who long to feel the delirium of the faithful. Praise for *God Is Round* "If you want to talk about soccer, go talk to Juan Villoro." —Carlos Fuentes "In trying times like these, when the anguish and uncertainty can be almost too much to bear, Mexico turns to him, its philosopher-fanatic, to make sense of the seemingly nonsensical. With the nation's hopes for the World Cup spiraling into doubt and chaos, Juan Villoro, one of Mexico's most decorated and esteemed writers — who also happens to be a leading soccer analyst—comes charging down the metaphorical field to scold, explain and extract the lessons within." —The New York Times "The literature of Juan Villoro...is opening up the path of the new Spanish novel of the millennium." —Roberto Bolaño "[Villoro] has assumed the Octavio Paz mantle of Mexican public wise man of letters (though with none of Paz's solemnity, for Villoro is as boyishly effusive, brimming with laughter and cleverness, as Paz was paternalistically dour—and, of course, Villoro, the author of the book *God Is Round*, may be the most fútbol-obsessed man alive)" —Francisco Goldman, The New Yorker Juan Villoro is Mexico's most prolific, prize-winning author, playwright, journalist, and screenwriter. His books have been translated into multiple languages; he has received the Herralde Award in Spain for his novel *El testigo*, the Antonin Artaud award in France for *Los culpables*. His novel, *Arrecife*, was recently short-listed for the Rezzori Prize in Italy. Villoro lives in

Mexico City and is a visiting lecturer at Yale and Princeton universities. Thomas Bunstead's translations from the Spanish include work by Eduardo Halfon and Yuri Herrera, Aixa de la Cruz's story "True Milk" in Best of European Fiction, and the forthcoming A Brief History of Portable Literature by Enrique Vila-Matas (a co-translation with Anne McLean). A guest editor of a Words Without Borders feature on Mexico (March 2015), Thomas has also published his own writing in the Times Literary Supplement, The Independent, the Paris Review blog, 3ammagazine, Days of Roses, readysteadybook, and >kill author.
