Named by Reader's Digest as one of the Best Romances of ALL TIME Get ready to laugh out loud with this hilarious romantic comedy featuring: A grumpy firefighter who thinks his way is the only way A bubbly cupcake vendor who thinks her pup can do no wrong Adorable Dalmatians who swap places—and the chaos that ensues An opposites-attract romance that'll warm your heart Violet March and Sam Nash are as different as night and day and have been enemies ever since Violet accused Sam of dognapping her beloved Dalmatian. Sam knows that would never happen—his well-trained fire safety demonstration dog never steps out of line, whereas Violet's problematic pooch has never met a command she didn't ignore completely, much like her bubbly owner. So when Sprinkles and Cinder accidentally switch places during the annual police vs. fire department softball tournament, Violet is thrilled by her dog's sudden perfect behavior, while stubborn-yet-charming Sam is horrified to find that his dog no longer listens. But when they eventually realize and switch the dogs back, Sam and Violet are shocked to find that not everything is as simple as it seems. And a little puppy love might be just the thing they've been missing... Rise and Fall of the Irish Nation DIANE Publishing

Most people fight over something or other and language is usually at the very center of the conflict. Often the way we use language is the cause of the battle. There are many areas in which fighting about language can be observed but civil law cases offer the most fertile examples of this warfare over words. What did the contract actually say? Was there deception in the advertising? Was the warning label clear and effective? Did the company evidence race or age discrimination against employees or customers? Was one company's name too similar to that of another company? Did the corporation plagiarize the work of another? Did it fraudulently represent what its work? This book is about the ways linguistic analysis describes, exposes, and aids disputes in 18 civil cases where language framed the battleground. Roger Shuy, a well-

known forensic linguist and consultant, shows how the skills of linguistic analysis can help resolve disputed meanings, while also showing how civil cases can prove to be fertile ground for linguistic scholarship. He does this by collecting and analyzing cases involving contracts, trademark disputes, advertisements, product liability, copyright infringement, discrimination, trademark disputes, and fraud controversies. In each case he employs all the tools of formal linguistics to show how it can be as helpful as other physical sciences in resolving legal disagreements. The work will be of interest primarily to linguists -- sociolinguists, forensic linguists, and scholars and students of law and society -- as well as lawyers and law students.

The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield.
