Collier's Once a Week Deere & Company Over the past decade, as digital media has expanded and print outlets have declined, pundits have bemoaned a “ crisis of criticism ” and mourned the “ death of the critic. ” Now that well-paying jobs in film criticism have largely evaporated, while blogs, message boards, and social media have given new meaning to the saying that

“ everyone ’ s a critic, ” urgent questions have emerged about the status and purpose of film criticism in the twenty-first century. In *Film Criticism in the Digital Age*, ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form. Drawing from a wide variety of case studies and methodological perspectives, the book ’ s contributors find many signs of the film critic ’ s declining clout, but they also locate surprising examples of how critics—whether moonlighting bloggers or salaried writers—have been able to intervene in current popular discourse about arts and culture. In addition to collecting a plethora of

scholarly perspectives, *Film Criticism in the Digital Age* includes statements from key bloggers and print critics, like Armond White and Nick James. Neither an uncritical celebration of digital culture nor a jeremiad against it, this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation, promotion, and explanation of artistic works.

The Tanning of America John Benjamins Publishing
This 26-volume set is a wide-ranging, time- and subject-spanning examination of the phenomenon of political protest. What drives people to take to the streets, and how do their

governments respond? These questions and many more are analysed in areas as varied as sixteenth-century German peasant uprisings, revolutionary Russians at the Paris Commune, women protesting nuclear weapons at Greenham Common, and the role Christianity played in protests across the ages. An impressive reference resource, this set also looks at the policing of protests and official responses to them.

From the New York Times bestselling author of *The Pentagon's New Map*, a bold, trenchant analysis of the post-Bush world In *Great Powers*, New York Times bestselling author and prominent political consultant Thomas Barnett provides a tour-de-force analysis of the grand realignments in the post-Bush world-in the spheres of economics, diplomacy, defense, technology, security, the environment, and more. The "great powers" are no longer just the world's nation-states, but the most powerful and dynamic influences on the global stage, requiring not simply a course correction, but a complete recalibration.

Globalization as it exists today was built by America- and now, Barnett says, it's time for America to shape and redefine what comes next.

As a restless kid on Long Island, Sam Kashner lapped up the beauty and madness of the Beats, living vicariously through the novels, poems, and stories of Jack Kerouac, Allen Ginsberg, and William Burroughs. Their words were revolutionary, and they turned their very lives into art. Kashner didn't want to just study the Beats, he wanted to be one of

them. So when he heard that Ginsberg had founded an unconventional writing program in Boulder, Colorado, he convinced his parents that college could wait, and became the first certificate student of the Jack Kerouac School of Disembodied Poetics. In one motion, Kashner stepped out of a sheltered suburban life and plunged into the chaotic world of his idols. What he discovered was both everything and not at all what he expected. The Beats were facing their twilight years and feeling it in their joints and in their minds. Some of them, like Ginsberg and Burroughs, had achieved international fame, while others, like Gregory Corso, had not, and were coming to the realization that they might never receive the recognition they deserved. In his new role as student, secretary, and psychiatrist, Sam Kashner was caught up in the hilarity of the hijinks and the cross fire of old arguments, finding himself in hot tubs with Ginsberg and on field trips to the marijuana ranch cultivated by Burroughs and his ill-fated son, Billy. Out of this rich material Kashner brings us a funny, touching, and irreverent portrait of the Beats never before seen: one that explodes the myths surrounding these American icons, but one that is also deeply

felt and full of admiration. After reading this book, you'll never look at the Beats in quite the same way again. When I Was Cool is also a very personal journey of a young man coming of age on the Beat slope of Mount Parnassus ("the Lower East Side" of the Rockies), a kind of Holden Caulfield for the postmodern era.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the

world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

This volume is a wide-ranging study in dialectology. General surveys appear along with in-depth studies of particular problems. Some papers describe the present situation in terms of dynamic synchrony, others deal with the past and making use of present-day dialectal data to help solve certain problems and, finally, those that draw on the past to explain the present. Traditional dialectological methodology

is presented here, as is modern quantificational and computative dialectology. Moreover, regional English and Welsh English are investigated on the phonological, morphological and syntactical levels.

Film Criticism in the Digital Age Houghton Mifflin Harcourt

Curated by the #1 New York Times bestselling author of *Wild*, this volume shares intimate perspectives from some of today's most acclaimed writers. As Cheryl Strayed explains in her introduction, "the invisible, unwritten last line of every essay should be

and nothing was ever the same again." The reader, in other words, should feel the ground shift, if even only a bit. In this edition of the acclaimed anthology series, *Strayed* has gathered twenty-six essays that each capture an inexorable, tectonic shift in life. Personal and deeply perceptive, this collection examines a broad range of life experiences—from a man's relationship with Mormonism to a woman's search for a serial killer; from listening to the music of Joni Mitchell to surviving five months at sea; from triaging injured soldiers to giving birth to a daughter; and much more. *The Best American Essays 2013* includes entries by Alice Munro, Zadie Smith, John Jeremiah Sullivan, Dagoberto Gilb, Vicki Weiqi Yang, J.D. Daniels, Michelle Mirsky, and others.

When Doctors Get Sick Avery

Do you believe in God? Nine out of ten Americans unhesitatingly answer yes. But for Douglas Porpora, the real questions begin where pollsters leave off. What, he asks, does religious belief actually mean in our lives? Does it shape our identities and our actions? Or, despite our professions of faith, are we morally adrift? *Landscapes of the Soul* paints a disturbing picture of American spiritual life. In his search for answers to his questions, Porpora interviewed clerks and executives, Jews, evangelical Christians, Buddhists, Taoists, and even followers of Bhagwan Sri Rajneesh. He asked them about God, and

about what they saw as their own place in the universe. What he found was a widespread inability to articulate any grand meaning of life. We lack heroes to inspire us. We lack a sense of calling, of transcendent purpose in our existence. Many of us seem incapable of caring deeply about the suffering of others. Our society is permeated with moral indifference. Yes, we are a believing people, but God is often a distant abstraction and rarely an emotional presence in our lives. Only such an emotional connection, Porpora argues, can be the basis of a genuine moral vision. Our emotional estrangement from God and the sacred keeps us from caring about social justice, keeps us from wanting to change the world, keeps us enclosed in our own private worlds. *Landscapes of the Soul* is a passionate call to broaden our spiritual and moral horizons, to raise our eyes to the greater reality that unites us all.

Cool Pantheon

Cool. It was a new word and a new way to be, and in a single generation, it became the supreme compliment of American culture. *The Origins of Cool in Postwar America* uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style. As Joel Dinerstein reveals in this dynamic book, cool began as a stylish defiance of racism, a challenge to suppressed

sexuality, a philosophy of individual rebellion, and a youthful search for social change. Through eye-opening portraits of iconic figures, Dinerstein illuminates the cultural connections and artistic innovations among Lester Young, Humphrey Bogart, Robert Mitchum, Billie Holiday, Frank Sinatra, Jack Kerouac, Albert Camus, Marlon Brando, and James Dean, among others. We eavesdrop on conversations among Jean-Paul Sartre, Simone de Beauvoir, and Miles Davis, and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the "white Negro" and black cool. We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir, jazz, and existentialism. Out of this mix, Dinerstein sketches nuanced definitions of cool that unite concepts from African-American and Euro-American culture: the stylish stoicism of the ethical rebel loner; the relaxed intensity of the improvising jazz musician; the effortless, physical grace of the Method actor. To be cool is not to be hip and to be hot is definitely not to be cool. This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir, jazz, existential literature,

Method acting, blues, and rock and roll. Dinerstein reveals that they came together to create something completely new—and that something is cool. THE #1 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY ENTERTAINMENT WEEKLY • BUZZFEED • POPCRUSH "Pretty Little Liars meets The Breakfast Club" (Entertainment Weekly) in this addictive mystery about what happens when five strangers walk into detention and only four walk out alive. Pay close attention and you might solve this. On Monday afternoon, five students at Bayview High walk into detention. Bronwyn, the brain, is Yale-bound and never breaks a rule. Addy, the beauty, is the picture-perfect homecoming princess. Nate, the criminal, is already on probation for dealing. Cooper, the athlete, is the all-star baseball pitcher. And Simon, the outcast, is the creator of Bayview High's notorious gossip app. Only, Simon never makes it out of that classroom. Before the end of detention Simon's dead. And according to investigators, his death wasn't an accident. On Monday, he died. But on Tuesday, he'd

planned to post juicy reveals about all four of his high-profile classmates, which makes all four of them suspects in his murder. Or are they the perfect patsies for a killer who's still on the loose? Everyone has secrets, right? What really matters is how far you would go to protect them. And don't miss the #1 New York Times bestselling sequel, [One of Us is Next! A Biographical Guide to the Great Jazz and Pop Singers](#) Penguin When a doctor gets sick, his status changes. No longer is his role defined as deriving from doctus, i. e. , learned, but as from patiens, the present participle of the deponent verb, patior, i. e. , to suffer, with all the passive acceptance of pain the verb implies. From pass us, the past participle, we get the word passion, with its wide gamut of emotional allusions, ranging from animal lust to the sufferings of martyrs. It is the connotation, not the denotation, of the word that defines the change of status. When a doctor is sick enough to be admitted to a hospital, he can no longer write orders; orders are written about him, removing him from control of his own situation. One recalls a sonnet from W. H. Auden's

sequence, *The Quest*, which closes with the lines: Unluckily they were their situation: One should not give a poisoner medicine, A conjuror fine apparatus, Nor a rifle to a melancholic bore. That is a reasonable expression of twentieth-century skepticism and rationalism. Almost all medical literature is written from the doctor's point of view. Only a few medically trained writers-one thinks of Chekhov's *Ward Six*-manage to incorporate the patient's response to his situation. Patients' voices were not much in evidence until well into the twentieth century, but an early example is John Donne's *Devotions upon Emergent Occasions* (1624).
