In recent years, the world community has demonstrated a renewed commitment to the pursuit of international criminal justice. In 1993, the United Nations established two ad hoc international tribunals to try those responsible for genocide and crimes against humanity in the former Yugoslavia and Rwanda. Ten years later, the International Criminal Court began its operations and is developing prosecutions in its first two cases (Congo and Uganda). Meanwhile, national and hybrid war crimes tribunals have been established in Sierra Leone,

Kosovo, Serbia and Montenegro, Croatia, Bosnia and Herzegovina, East Timor, Indonesia, Iraq, and Cambodia. Thousands of people have given testimony before these courts. Most have witnessed war crimes, including mass killings, torture, rape, inhumane imprisonment, forced expulsion, and the destruction of homes and villages. For many, testifying in a war crimes trial requires great courage, especially as they are well aware that war criminals still walk the streets of their villages and towns. Yet despite these risks, little attention has been paid to the fate of witnesses of mass atrocity. Nor do we know much about their experiences testifying before an international tribunal or the effect of such testimony on their return to their postwar communities. The first study of victims and witnesses who have testified before an international war crimes tribunal, *The Witnesses* examines the opinions and attitudes of eighty-seven individuals—Bosnians, Muslims, Serbs, and Croats—who have appeared before the International Criminal Tribunal for the former Yugoslavia.

This blistering novel—from the bestselling, Pulitzer Prize – winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law – in the person of aging, disillusioned Sheriff Bell – can contain. As Moss tries to evade his pursuers – in particular a mysterious mastermind who flips coins for human lives – McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning ’ s headlines. *No Country for Old Men* is a triumph.

The Best Christmas Pageant Ever
University of Pennsylvania Press

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language,

play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

The Remarkable True Story of the Shopping Mall Gorilla Harper Collins

Perhaps only the animals can tell us what it is to be human. The souls of ten animals caught up in human conflicts over the last century and connected to both famous and little-known writers in surprising ways tell their astonishing stories of life and death. In a trench on the Western Front, a cat recalls her owner Colette's theatrical antics in Paris. In Nazi Germany, a dog seeks enlightenment. A Russian tortoise once owned by the Tolstoys drifts in space during the Cold War. During the Siege of Sarajevo, a starving bear tells a fairy tale. And a dolphin sent to Iraq by the U.S. Navy writes a letter to Sylvia Plath. Exquisitely written, playful, and poignant, Ceridwen Dovey's *Only the Animals* is a remarkable literary achievement by one of our brightest young writers. An animal's-eye-view of humans at our brutal, violent worst and our creative, imaginative best, it asks us to find our way back to empathy not only for animals but for other people, and to believe again in the redemptive power of reading and writing fiction.

Three brothers and their relations in 19th century Russia provide the base for a sweeping epic overview of human striving, folly and hope. First published in 1880, *The Brothers Karamazov* is a landmark work in every respect. Revolving around shiftless father Fyodor Pavlovich Karamazov are the fates of his three sons, each of whom has fortunes entwined with the others. The eldest son, Dimitri, seeks an inheritance from his father and becomes his rival in love. Ivan, the second son, is so at odds with the world that he is driven near to madness, while the youngest, Alexi, is a man of faith and a natural optimist.
