The Darkening Age Clear Light Pub  
A literary history of our most influential book of all time, by an Oxford scholar and Anglican priest In our culture, the Bible is monolithic: It is a collection of books that has been unchanged and unchallenged since the earliest days of the Christian church. The idea of the Bible as "Holy Scripture," a non-negotiable authority straight from God, has prevailed in Western society for some time. And while it provides a firm foundation for centuries of Christian teaching, it denies the depth, variety, and richness of this fascinating text. In *A History of the Bible*, John Barton argues that the Bible is not a prescription

---

to a complete, fixed religious system, but rather a product of a long and intriguing process, which has inspired Judaism and Christianity, but still does not describe the whole of either religion. Barton shows how the Bible is indeed an important source of religious insight for Jews and Christians alike, yet argues that it must be read in its historical context--from its beginnings in myth and folklore to its many interpretations throughout the centuries. It is a book full of narratives, laws, proverbs, prophecies, poems, and letters, each with their own character and origin stories. Barton explains how and by whom these disparate pieces were written, how they were canonized (and which ones weren't), and how they were assembled, disseminated, and interpreted around the world--and,

importantly, to what effect. Ultimately, A History of the Bible argues that a thorough understanding of the history and context of its writing encourages religious communities to move away from the Bible's literal wording--which is impossible to determine--and focus instead on the broader meanings of scripture.

The Pearls received so many child training questions in the mail that they began publishing a free bimonthly magazine to answer them--No Greater Joy. A New York Times Notable Book, winner of the Jerwood Award from the Royal Society of Literature, a New York Times Book Review Editors' Choice, and named a Book of the Year by the Telegraph, Spectator, Observer, and BBC History Magazine, this bold new history of the rise of Christianity shows how its radical followers helped to annihilate Greek and Roman civilizations. The Darkening Age is the largely unknown story of how a militant religion deliberately attacked and suppressed the teachings of the Classical world, ushering in centuries of unquestioning adherence to "one true

early Christians were meek and mild, going to their martyrs' deaths singing hymns of love and praise, the truth, as Catherine Nixey reveals, is very different. Far from being meek and mild, they were violent, ruthless, and fundamentally intolerant. Unlike the polytheistic world, in which the addition of one new religion made no fundamental difference to the old ones, this new ideology stated not only that it was the way, the truth, and the light but that, by extension, every single other way was wrong and had to be destroyed. From the first century to the sixth, those who didn't fall into step with its beliefs were pursued in every possible way: social, legal, financial, and physical. Their altars were upturned and their temples demolished, their statues hacked to pieces, and their priests killed. It was an

annihilation. Authoritative, vividly written, and utterly compelling, this is a remarkable debut from a brilliant young historian.

In this concise, accessible book, Warren Carter and A.J. Levine introduce three aspects of New Testament study: the world of the text (plots, characters, setting, and themes), the world behind the text (the concerns, circumstances, and experiences of the early Christian communities), and the world in front of the text (the meaning for contemporary readers). As students engage the New

Testament, they face a central issue that has confronted all students before them, namely, that these texts have been and are read in diverse and often quite conflicting ways. These multiple readings involve different methods: historical-critical, traditional (history of interpretation), colonial, multicultural, and sociological, with feminist and liberationist implications for the first-century readers as well as the ongoing implications for today's reader. For example, Carter and Levine show how a text can be used by both colonizer and colonized, feminist and anti-feminist, or pro- and anti-

Jewish. The authors also show how scholarly work can be both constructive and threatening to the contemporary Church and how polemical texts can be used, whether for religious study, theological reflection, or homiletical practice. "... a brilliant contemporary representative of the biblical discipline of the Einleitung, Introduction. ... In the best tradition of historical-critical biblical scholarship, Carter and Levine advocate a respectful, critical and generous engagement with the texts, involving readers in finding meanings. ... The Christian Destruction of the Classical World One World

This inspirational book celebrates the faith and courage of members of a traditional church that -- in 20th century America -- still struggling for religious freedom. Their

Greatest challenge is the ongoing legal battle against the 1990 Supreme Court decision citing peyote use to deny the Native American Church the First Amendment right to 'the free exercise of religion'. Legislation providing an exemption to the Native American Church was overturned by the Supreme Court in 1997. The eloquent personal testimony offered by Church members from many different tribes demonstrates the spiritual strength of this religious tradition and makes it clear that peyote is not used to obtain 'visions' but to heal the body and spirit and to teach

---

righteousness. Peyote meetings play, which stress abstinence from alcohol, truthfulness, family obligations, economic self-suffering, service, and prayer. This book is important reading for any one who cares about spiritual values, political process, and the individual's freedom to worship according to the dictates of conscience.

Sun Like Thunder One Church, Many Tribes

Arguing that the way Jesus leads and the way we follow are symbiotic, Peterson begins with a study of how the ways of those who came before Christ revealed and prepared the way of the Lord that became complete in Jesus. He then challenges the ways of the contemporary American church, showing in stark relief how what we have chosen to focus on--consumerism, celebrity, charisma, and so forth--obliterates what is unique in the Jesus way.

Today, people from various parts of

the world who are interested in helping fellow human beings impacted by famine, epidemics, wars, and poverty are uniquely positioned. They are interconnected due to globalization's impact, which also has implications for intercultural work and global missions. The ability to help people is a constructive asset, which calls for the need to build friendships and partnerships across the globe. Helping well depends on a number of factors, yet this book looks into the impact of stereotype threat and its effects on intercultural identities, the perceptions of others, and performance in intercultural

missions. Human interactions continue to suffer due to fears, anxious reactions about confirming negative stereotypes about a person's identity, abilities, and effectiveness in global missions. Stereotype threat happens when caricatures and negative understandings about people's identities are invoked.

The central document of the Second Vatican Council, *Lumen Gentium* was promulgated by Pope Paul VI on November 21, 1964. This document is "the keystone" of the Councils whole Magisterium. It

With it, according to John Paul II, the Second Vatican Council wished to shed light on the Church's reality: a wonderful but complex reality consisting of human and divine elements, visible and invisible. Simply Christian Kairos Publishing Daniel Migliore's *Faith Seeking Understanding* has been a standard introduction to Christian theology for more than a decade. have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of Faith Seeking Understanding features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, "Confessing Jesus Christ in Context," explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and mujerista traditions. The second new chapter, "The Finality of Jesus Christ and

Religious Pluralism," addresses the growing interest in the relationship of Christianity to other religions and their adherents. Migliore's three delightful theological dialogues are followed by a new appendix, an extensive glossary of theological terms, making the book even more useful to students seeking to understand the history, themes, and challenges of Christian belief.
