In this concise, accessible book, Warren Carter and A.J. Levine introduce three aspects of New Testament study: the world of the text (plots, characters, setting, and themes), the world behind the text (the concerns, circumstances, and experiences of the early Christian communities), and the world in front of the text (the meaning for contemporary readers). As students engage the New Testament, they face a central issue that has confronted all students before them, namely, that these texts have been and are read in diverse and often quite conflicting ways. These multiple readings involve different methods: historical-critical, traditional (history of interpretation), colonial, multicultural, and sociological, with feminist and liberationist implications for the first-century readers as well as the ongoing implications for today's reader. For example, Carter and Levine show how a text can be used by both colonizer and colonized, feminist and anti-feminist, or pro- and anti-Jewish. The authors also show how scholarly work can be both constructive and threatening to the contemporary Church and how polemical texts can be used, whether for religious study, theological reflection, or homiletical practice. "... a brilliant contemporary representative of the biblical discipline of the Einleitung, Introduction. ... In the best tradition of historical-critical biblical scholarship, Carter and Levine advocate a respectful, critical and generous engagement with the texts, involving readers in finding meanings. ... There are many gems in the heart of this book, including excursions in shaded boxes, and some misguided traditional interpretations are safely despatched. *Death Comes for the Archbishop* Willa Cather - Willa Cather described the result of her bold experimentation into advancing the art of the novel in *Death Comes for the Archbishop* as "altogether a new kind of thing." Reviewers, critics, scholars, and academicians have described the work in a multiplicity of terms: chronicle, character study, intimate epic, regional historical fiction, and even, in the lyrical language of one writer, "an interplay of environment and character." Such a distinctively idiosyncratic and successful endeavor was *Death Comes for the Archbishop* in the eyes of its creator that it moved Willa Cather—arguably one of the five best writers in America at any time during her long career—to request an increase in her standard royalty payment by one percent. *Death Comes for the Archbishop* is the story of the life of Archbishop Jean Marie Latour, a French missionary. He is given the task of overseeing the diocese of New Mexico, which has just been annexed by the United States from Mexico. His flock are Mexicans who are now displaced from their country, Native Americans who are still fighting to keep their land, and Americans settling the area. The year is 1851. Latour travels to New Mexico with his friend, Father Joseph Vaillant. They travel from their mission in Sandusky,

Ohio to Santa Fe. The trip takes them a year. When they finally reach Santa Fe, the resident Mexican priests will not accept Latour's authority, and so Latour must travel to Mexico for the proper papers from the Bishop of Durango. While he is gone, Father Joseph ingratiates himself within the community. When Father Latour returns, he finds the people willing to accept him. The diocese that Father Latour has is huge in scope, and there are many priests under his authority. There are also many settlements that do not have resident priests. He must travel to attend to his people and convert the natives. His time is largely spent traveling.

The Encyclopaedia Britannica Routledge Account of the introduction of Christianity to indigenous cultures around the world. Discusses the place of indigenous people and the land in the modern world, the interaction of worldview, stories, theology and gospel, and indigenous identity and suffering, cultural practices, and true partnership. Includes full-colour photographs, appendices and bibliography. The Darkening Age The Church of Jesus Christ of Latter-day Saints Why is justice fair? Why are so many people pursuing spirituality? Why do we crave relationship? And why is beauty so beautiful? N. T. Wright argues that each of these questions takes us into the mystery of who God is and what he wants from us. For two thousand years Christianity has claimed to answer these mysteries, and this renowned biblical scholar and Anglican bishop shows that it still does today. Like C. S. Lewis did in his classic *Mere Christianity*, Wright makes the case for Christian faith from the ground up, assuming that the reader is starting from ground zero with no predisposition to and perhaps even some negativity toward religion in general and Christianity in particular. His goal is to describe Christianity in as simple and accessible, yet hopefully attractive and exciting, a way as possible, both to say to outsiders Ô You might want to

look at this further, and to say to insiders You may not have quite understood this bit clearly yet. One Church, Many Tribes Canongate Books

A deep exploration of the intersection of faith, creativity, and justice from acclaimed hip-hop artist and creative polymath Sho Baraka "Sho has the courage to say what many are thinking and the candor to say what many are not. His words have positively influenced me for years—now this book gives the world that influence." —Lecrae You were created to help bring truth and beauty into this broken world. God made you with an imagination and a yearning for justice. No matter your calling or vocation, you can help shape a better world around you through your creativity. But that doesn't mean it will be easy. We are surrounded by toxic stories and bad cultural thinking. We're held back by incomplete theology. But does it have to be like that? Is frustration the end of the story? In the face of confusion and injustice, we can lose sight of our true narrative—the one that started in a garden and wants to make our real lives better today. In He Saw That It Was Good, activist and recording artist Sho Baraka wrestles deeply and honestly with these questions, gives you permission to do the same, and shows a hard-earned path to creative change. With Sho, you'll engage with art, justice, and history. Learn from the powerful principles of historic movements, explore why it's important to cultivate your creative calling (no matter what you do!), and discover a fresh look at how the gospel can transform how you see God, your neighbor, your work, and your world. You'll return to your biggest and truest story. Your life (and your world) need never be the same.

The Christian Destruction of the Classical World Phoemixx Classics Ebooks

We know the bedrock themes upon which the Christian faith stands: creation, fall, redemption, restoration. As Christians,

we live within these great moments of God's plan for humanity and all of his creation. In other words, our lives are part of Christian theology—every part of our lives, even surgery. As a part of Zondervan's Ordinary Theology series, The Scalpel and the Cross recounts New Testament professor Gene Green's encounter with open-heart surgery and carefully examines the many ways in which Christian doctrine spoke into the experience. The result is a short book that avoids shallow explanations and glib promises, instead guiding readers to deeper understanding and enduring hope in the face of one of modern life's necessary traumas.

The New Testament Penguin "One Church, Without Tribes" analyzes if it is necessary to add tribal traditions to a presentation of the gospel in order to reach Native Americans. The author's study of scripture and Native American history reveals that a clear presentation of the gospel alone still has the power to change Native America. Franklin warns of the danger of mixing the gospel and sacred tribal traditions. This book is a must for those who minister to the Native American culture or are looking for information on how to reach Native Americans with the message of Jesus' redeeming love.

In this introduction to ecclesiology, respected scholars Brad Harper and Paul Louis Metzger offer a solidly evangelical yet ecumenical survey of the church in mission and doctrine. Combining biblical, historical, and cultural analysis, this comprehensive text explores the church as a Trinitarian, eschatological, worshiping, sacramental, serving, ordered, cultural, and missional community. It also offers practical application, addressing contemporary church life issues such as women in ministry, evangelism, social action, consumerism in church growth trends, ecumenism, and the church in postmodern culture. The book will appeal to all who are interested in church doctrine, particularly undergraduates and seminarians.

Today, people from various parts of the world who are interested in helping fellow human beings impacted by famine, epidemics, wars, and poverty are uniquely positioned. They are interconnected due to globalization's impact, which also has implications for

intercultural work and global missions.

The ability to help people is a constructive asset, which calls for the need to build friendships and partnerships across the globe. Helping well depends on a number of factors, yet this book looks into the impact of stereotype threat and its effects on intercultural identities, the perceptions of others, and performance in intercultural missions. Human interactions continue to suffer due to fears, anxious reactions about confirming negative stereotypes about a person's identity, abilities, and effectiveness in global missions. Stereotype threat happens when caricatures and negative understandings about people's identities are invoked.

The central document of the Second Vatican Council, Lumen Gentium was promulgated by Pope Paul VI on November 21, 1964.

This document is "the keystone" of the Councils whole Magisterium. It focuses on the whole Church as a communion of charity. With it, according to John Paul II, the Second Vatican Council wished to shed light on the Church's reality: a wonderful but complex reality consisting of human and divine elements, visible and invisible.

Lumen Gentium Chosen Books This inspirational book celebrates the faith and courage of members of a traditional church that -- in 20th century America -- still struggling for religious freedom. Their Greatest challenge is the ongoing legal battle against the 1990 Supreme Court decision citing peyote use to deny the Native American Church the First Amendment right to 'the free exercise of religion'. Legislation providing an exemption to the Native American Church was overturned by the Supreme Court in 1997. The eloquent personal testimony offered by Church members from many different tribes demonstrates the spiritual strength of this religious tradition and makes it clear that peyote is not used to obtain 'visions' but to heal the body and spirit and to teach righteousness. Peyote meetings play, which stress abstinence from alcohol, truthfulness, family obligations, economic self-suffering, service, and prayer. This book is important reading for any one who cares about spiritual values, political

process, and the individual's freedom to worship according to the dictates of conscience.

Trevor Noah's unlikely path from  
apartheid South Africa to the desk of

The Daily Show began with a criminal  
act: his birth. Trevor was born to a

white Swiss father and a black Xhosa  
mother at a time when such a union

was punishable by five years in  
prison. Living proof of his parents'

indiscretion, Trevor was kept mostly  
indoors for the earliest years of his

life, bound by the extreme and often  
absurd measures his mother took to

hide him from a government that  
could, at any moment, steal him away.

Finally liberated by the end of South  
Africa's tyrannical white rule, Trevor

and his mother set forth on a grand  
adventure, living openly and freely

and embracing the opportunities won  
by a centuries-long struggle. Born a

Crime is the story of a mischievous  
young boy who grows into a restless

young man as he struggles to find  
himself in a world where he was never

supposed to exist. It is also the story  
of that young man's relationship with

his fearless, rebellious, and fervently  
religious mother—his teammate, a

woman determined to save her son  
from the cycle of poverty, violence,

and abuse that would ultimately  
threaten her own life. The stories

collected here are by turns hilarious,  
dramatic, and deeply affecting.

Whether subsisting on caterpillars for  
dinner during hard times, being

thrown from a moving car during an  
attempted kidnapping, or just trying to

survive the life-and-death pitfalls of  
dating in high school, Trevor

illuminates his curious world with an  
incisive wit and unflinching honesty.

His stories weave together to form a  
moving and searingly funny portrait of  
a boy making his way through a  
damaged world in a dangerous time,  
armed only with a keen sense of  
humor and a mother's unconventional,  
unconditional love.

winner of the Jerwood Award from

Choice, and named a Book of the Year

by the Telegraph, Spectator,  
Observer, and BBC History Magazine,

this bold new history of the rise of  
Christianity shows how its radical

followers helped to annihilate Greek  
and Roman civilizations. The

Darkening Age is the largely unknown  
story of how a militant religion

deliberately attacked and suppressed  
the teachings of the Classical world,

ushering in centuries of unquestioning  
adherence to "one true faith." Despite

the long-held notion that the early  
Christians were meek and mild, going

to their martyrs' deaths singing hymns  
of love and praise, the truth, as

Catherine Nixey reveals, is very  
different. Far from being meek and

mild, they were violent, ruthless, and  
fundamentally intolerant. Unlike the

polytheistic world, in which the  
addition of one new religion made no

fundamental difference to the old  
ones, this new ideology stated not

only that it was the way, the truth, and  
the light but that, by extension, every

single other way was wrong and had  
to be destroyed. From the first

century to the sixth, those who didn't  
fall into step with its beliefs were

pursued in every possible way: social,  
legal, financial, and physical. Their

altars were upturned and their

temples demolished, their statues  
hacked to pieces, and their priests  
killed. It was an annihilation.

Authoritative, vividly written, and  
utterly compelling, this is a remarkable  
debut from a brilliant young historian.
