of glucose (sugar) in fresh capillary whole blood. The OneTouch® Ultra 2 System is intended for use outside the body (in vitro diagnostic use) by people with diabetes at home and by health care professionals in a clinical setting as an aid to monitor the effectiveness of diabetes control. It should not be used for the diagnosis of diabetes or for testing newborns. Test principle

Amazon.com: one touch control solution

To perform a control test: 1. Apply a drop of One Touch Ultra control solution to the test strip instead of a drop of blood. 2. Compare the results to the control range (you can find the range on the side of the vial of test strips) 3. If the results are inside the

range printed on the vial, your meter is functioning correctly.
