This book sheds new light on the important but diverse roles of women in the civil war in Nepal (1996-2006), and the post-conflict reconstruction period (2006-2016). Engaging critically with the women, peace and security literature, *Women, Peace and Security in Nepal* questions the potential of peace processes to become a window of opportunity for women's empowerment, while insisting on the vital importance of a gender perspective in the study of conflict, security and peace. After the signing of the 2006 Comprehensive Peace Accord, Nepal experienced a huge leap in women's political representation in the subsequent Constituent Assembly, often portrayed as a landmark victory for women's empowerment in the context of South Asia. Nepali women's mobilization played a key role in this success story, though similar mobilization has failed to produce the same outcomes elsewhere in South Asia. How does Nepal differ from the other cases? Presenting studies of war-time and post-conflict Nepal through a gender lens, this book critically assesses the argument that war and peacebuilding can add momentum to the transformation of gender roles. Contributing new knowledge on women's disempowerment and empowerment in conflict and peacebuilding, the book also offers insights for contemporary debate on gender and political change in conflict-affected societies. This book will be of great interest to students of peace and conflict studies, gender security, South Asia and international relations in general, as well as policy-makers and NGOs.

The No Nonsense Guide to Minority Rights in South Asia is a practical primer on issues related to minority rights in South Asian countries. It delves into all major concepts and cutting edge theories that constitute the evolving minority rights discourse. The 'minority' in South Asia is typically characterized by 'non-domination' and powerlessness, two major markers apart from language, culture, religion and ethnicity. This book explores the process of this kind of 'minoritization' in the region, evaluating the weaknesses of constitutional and legal frameworks that contribute to it. In doing so, it examines in detail the State's role in the socio-political recognition, protection and exclusion of minorities. By taking a rights-based approach, the book argues that nation-building in South Asia has been devoid of the commitment to expand the democracy and equality agenda and has instead been dominated by majoritarian and authoritarian policies. While elaborating on such politics of recognition and inequality, the author goes on to explore and analyze the ethnic composition of each South Asian country—India, Pakistan, Nepal, Bangladesh, Sri Lanka and Bhutan. She also highlights the role of minority agencies in resisting injustice and exclusion, thus providing a comparative and holistic understanding of the minority discourse in the region. This book is an important reference resource for students and academics working in the areas of politics and international relations, especially on human rights, minority rights and state-building. It will also be a useful guide for activists.

### A Traveler's Guide The Rough Guide to Nepal

Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal,

Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

### **The No Nonsense Guide to Minority Rights in South Asia** Rough Guides

In migration studies, the nexus between migration and development in the global South has been meticulously debated. However, a unanimous resolution to this debate has not been found, due to the ever-changing nature of international migration. This book advances knowledge on the global debate on the migration-development

---

relationship by documenting experiences in a number of countries in South Asia. Drawing on the experiences of global South Asians, this volume documents the impact of migration on the social, economic, and political fields in the broader context of development. It also presents a regional experience by looking into the migration-development nexus in the context of South Asia, and analyses the role South Asian migrants and diaspora communities play in the South Asian society. Contributions from a variety of disciplinary backgrounds, including sociology, anthropology, political science, international relations and economics, document the development implications of South Asian migration. Broad in scope in terms of contents, timeline of migration, and geographical coverage, the book presents empirically-based case studies involving India, Bangladesh, Sri Lanka, Pakistan, and Nepal and their emigrants living and working in different parts of the world. Going beyond reporting the impacts of migration on economic development by highlighting the implications of 'social development' on society, this book provides a fascinating contribution to the fields of Asian Development, Migration Studies and South Asian Studies.

This book offers a fresh perspective on gender debates in Nepal and analyses how the international migration of the first generation of professional female Nepali nurses has been a catalyst for social change. With unprecedented access to study participants in Nepal (the source country), following them

and their networks in the UK (the destination country), this ethnographic study explores Nepali nurses' migration journeys, relocation experiences, and their international migration 'dreams' and aspirations. It illustrates how migrant nurses strive to manage social and professional difficulties as they work towards achieving their ultimate migration aims. The book shows that nursing shortages and international nurse migration are issues of gender, on a global scale, and that the current trend of privatisation in health systems makes the labour market vulnerable, and stimulates international migration of health professionals. Arguing that international nurse migration is an integral part of the globalisation of health, the author highlights key policy strategies that are useful for global nursing and health workforce management. A well-informed and much-needed study of nurse migration in the global healthcare market, this book will be of interest to professionals and academics working in nursing studies, health and social care studies, gender and international migration studies, and global health studies, as well as South Asian studies.
