The Jeep Cherokee XJ

is a pioneering SUV  
that delivers

commendable

performance and off-  
road capability. More

than 3 million Cherokee  
XJs were manufactured

during its production  
run. However, when the  
XJs rolled off the  
production lines, they  
were built primarily for  
the street. As a result,  
XJs need crucial  
modifications and high-  
performance upgrades  
to make them better for  
off-road duty. In this  
updated edition, author  
and veteran Cherokee  
expert Eric Zappe  
guides you through  
each stage of an XJ  
build, so you can take  
the mild-mannered,

bone-stock XJ and  
upgrade it to a capable  
off-road performer.  
Zappe delves into  
suspension bolt-on  
improvements, including  
lift kits to increase  
ground clearance and  
suspension travel. He  
also covers high-  
performance shocks and  
long-arm suspensions.  
Wheels and tires are  
your vital link to the  
terrain, and he reveals  
all the important  
considerations so you  
select the right

combination. XJs need a 2.5-, 2.8-, 4.0-liter heavy-duty steering system to negotiate challenging off-road conditions, and Zappe explains several ways to upgrade the steering. Driveline and axle upgrades are an important part of the performance equation, so these performance improvements are covered as well. But he doesn't stop there; he also explores engine performance improvements for the Cherokee so the Cherokee has more power for off-road performance. In addition, he covers some basic tips for body strengthening and adding skid plates. If you're ready to go off road with your Cherokee but you're not planning to build a top-dollar off-road machine, this is the book for you. With the techniques and latest products described in

this book, you will be able to upgrade your XJ to much higher level of performance and your XJ will be at home off and on road.

Journal From New York Times bestselling author Chris Barton and new illustrator Louis Thomas comes a fun, rhythmic picture book about finding the music that is perfect for you! A boy who loves to make noise gets to pick only one instrument (at his parents urging) in a music store, but there is too much to choose from! There's triangles and sousaphones! There's guitars and harpsichords! Bagpipes

and cellos and trombones! How can he find the one that is just right for him out of all those options?
