She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on

Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. Inquisitor General Tom á s
de Torquemada grows, so
does the brutality of the

inspires. When a dear
friend ' s demise brings the
violence close to home,
Sant á ngel is enraged and
takes retribution into his
own hands. But he is from a
family of conversos, and his
Jewish heritage makes him
an easy target. As
Sant á ngel witnesses the
horrific persecution of his
loved ones, he begins
slowly to reconnect with
the Jewish faith his family

Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.

Squamous cell cancers of
the head and neck
(SCCHN), also known as

head and neck cancers (HNC) encompass malignancies of the oral cavity, larynx, nasopharynx and pharynx, and are diagnosed in over 500,000 patients worldwide each year, accounting for 5% of all malignancies. In the past several years, there have been significant developments in understanding of HNC. It is now recognized that although alcohol and tobacco use has represented the likely predominant cause of SCCHN, the incidence of a second class of SCCHN related to oncogenic human papillomavirus (HPV) infection is increasing, with a four-fold increase in the past 2 decades, and now thought to represent up to 30% of cases. The

first effective target for SCCHN, the EGFR-targeting antibody cetuximab, was approved as recently as in 2006; since then, a growing body of research has identified additional signaling pathways as important in disease pathogenesis, and in resistance to treatment. Proteins such as c-Met, Src, and HER2 are emerging as new therapeutic targets, with a considerable ferment in the clinical trial community. As a capstone of research progress, 2011 marked the first reports of high throughput sequencing of SCCHN tumors, with these efforts identifying unexpected players such as Notch as frequent subject of mutation, spawning new hypotheses for future

research. This book will be of interest to researchers who are interested in better understanding the biology of head and neck cancers, with the goals of better designing therapies, identifying risk factors, or investigating the molecular basis of the disease.

This book examines the lives and writings of important intellectual women, most of whom are known by small circles only and then in a foreign language. This is the first time many of them, including someone as famous (in Austria) as Kaethe Leichter, will see the light of day in English. The work shows how these women negotiated their national and Jewish identities,

their intellectual interests and personal lives in the multi-cultural population of Central Europe.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes

would not be uninteresting to the public." -an excerpt
