Unlike VS on Windows, VS on Mac (and Xamarin Studio for those who haven't

updated) can open multiple solutions at the same time in the same window. The option to do so is a bit hidden, but it's there. What you do is: Open your first solution; Select 'File->Open' Select your solution in the Open dialog (just a single click, don't double click to open it) *Using Multiple Solutions in Visual Studio | Blog* Right click in Solution Explorer on folder you want to set as root folder of new view, then select New Solution Explore View option. New window will appear, then you can put it into your layout everywhere you want. How to set title of view? Click the last icon in Solution Explorer's toolbar (Rename).
