After the Downfall Penguin

The year is 2137, over 160 years ago the "Great War" was fought in Europe. The Western Hemisphere stayed out of the conflict, as much as possible, using the slogan: "The East for the East ... The West for the West." For all this time the USA did not go past 30 degrees or 175 degrees latitude. Until the aero-submarine, "Coldwater" in command of Lieutenant Jefferson Turck is blown past the 30 in a raging storm. Damaged, the ship landed in Europe only to find that it was not the enemy that was expected but something entirely different. "For headling, nonstop adventure and for vivid, even florid, scenery, no one even comes close to Howard."—Harry Turtledove In a meteoric career that covered only a dozen years, Robert E. Howard defined the sword-and-sorcery genre. In doing so, he brought to life the archetypal adventurer known to millions around the world as Conan the barbarian. Witness, then, Howard at his finest, and Conan at his most savage, in the latest volume featuring the collected works of Robert E. Howard, lavishly illustrated by award-winning artist Greg Manchess. Prepared directly from the earliest known versions—often Howard's own manuscripts—are such sword-and-sorcery classics as "The Servants of Bit-Yakin" (formerly published as "Jewels of Gwahlur"), "Beyond the Black River," "The Black Stranger," "Man-Eaters of Zamboula" (formerly published as "Shadows in Zamboula"), and, perhaps his most famous adventure of all, "Red Nails." The Conquering Sword of Conan includes never-before-published outlines, notes, and story drafts, plus a new introduction, personal correspondence, and the revealing essay "Hyborian Genesis"—which chronicles the history of the creation of the Conan series. Truly, this is heroic fantasy at its finest.

In 1941 Winston Churchill was Hitler's worst enemy. Then a Nazi secret agent changed everything. What if Neville Chamberlain, instead of appeasing Hitler, had stood up to him in 1938? Enraged, Hitler reacts by lashing out at the West, promising his soldiers that they will reach Paris by the new year. Instead, three years pass, and with his genocidal apparatus not fully in place, Hitler barely survives a coup, while Jews cling to survival, and England and France wonder whether the war is still worthwhile. The stage is set for World War II to unfold far differently from the history we know--courtesy of Harry Turtledove, wizard of "what if?," in the continuation of his thrilling series: The War That Came Early. Through the eyes of characters ranging from a brawling American serving with the Abraham Lincoln Brigade in Spain to a woman who has seen Hitler's evil face-to-face, The Big Switch rolls relentlessly forward into 1941. As the Germans and their Polish allies slam into the gut of the Soviet Union in the west, Japan pummels away in the east. Meanwhile, in the trenches of France, French and Czech forces are outmanned but not outfought by their Nazi enemy. Then the stalemate is shattered. In

England Winston Churchill dies suddenly, leaving the gray men wondering who their real enemy is. And as the USSR makes peace with Japan, the empire of the Rising Sun looks westward—its war with America about to begin.

Hitler's War Del Rey

The New York Times bestselling author and "maven of alternate history" (San Diego Union-Tribune) presents a near- future thriller. A supervolcanic eruption in Yellowstone Park sends lava and mud flowing toward populated areas, and clouds of ash drifting across the country. The fallout destroys crops and livestock, clogs machinery, and makes cities uninhabitable. Those who survive find themselves caught in an apocalyptic catastrophe in which humanity has no choice but to rise from the ashes and recreate the world...

In the Presence of Mine Enemies Del Rey

In this thrilling science fiction adventure—the triumphant conclusion to the Tipping Point trilogy—New York Times bestselling author Alan Dean Foster returns to a near future in which genetic manipulation and extreme body modification have changed profoundly what it means to be human. Dr. Ingrid Seastrom was once a respected American physician. Whispr, whose body has been transformed to preternatural thinness, was once a streetwise thief. Now, in a world on the edge of catastrophe from centuries of environmental exploitation, they are allies—thrust together by fate to unravel an impossible mystery—even as they are stalked by a relentless killer. Ingrid and Whispr are hunted fugitives bound together by a thread: a data-storage thread made of a material that cannot exist, yet somehow does. Their quest to learn its secrets—and, in Whispr's case, sell them to the highest bidder—has brought them to South Africa's treacherous Namib desert. Beyond its dangers waits a heavily guarded research facility that promises answers, if they can survive long enough to get there. But that won't be easy, not with

Napun Molé on their trail.

They've already escaped the assassin twice, and as far as Molé is concerned, finishing them off isn't just a job anymore . . . it's personal. Through Darkest Europe Del Rey

As England tightens its control over the Atlantean colonies, Victor Radcliff and his band of revolutionaries resolve to make the English pay for each and every piece of land they dare to occupy. They will stop at nothing to preserve the liberty of their people as a new nation is born—a nation that will change the face of the world!

Yellowstone National Park sits on a hot spot: a plume of molten rock coming up from deep inside the earth capable of volcanic eruptions far greater than any that have occurred in times past. It has been silent for many years, providing false security for a nation unprepared for the full force and fury of nature unleashed. Then explosions send lava and mud flowing far beyond Yellowstone toward populated areas. Clouds of ash drift across the country, nearly blanketing the land from coast to coast. The fall-out destroys crops and livestock, clogs machinery, and makes cities uninhabitable. Those who survive find themselves facing the dawn of a new ice age as temperatures plummet worldwide. Colin Ferguson is a police lieutenant in a suburb of Los Angeles, where snow is falling for the first time in decades. He fears for his family, who are spread across America, refugees caught in an apocalyptic catastrophe in which humanity has no choice but to rise from the ashes and re-create the world...

The year is 1597. For nearly a decade, the island of Britain has been under the rule of King Philip in the name of Spain.

The citizenry live under an enforced curfew—and in fear of the Inquisition's agents, who put heretics to the torch in public displays. And with Queen Elizabeth imprisoned in the Tower of London, the British have no symbol to unite them against the enemy who occupies their land. William Shakespeare has no interest in politics. His passion is writing for the theatre, where his words bring laughter and tears to a populace afraid to speak out against the tyranny of the Spanish crown. But now Shakespeare is given an opportunity to pen his greatest work—a drama that will incite the people of Britain to rise against their persecutors—and change the course of history. 1945: Russian troops have entered Berlin, and are engaged in a violent orgy of robbery, rape, and revenge... Wehrmacht officer Hasso Pemsel, a career soldier on the losing end of the greatest war in history, flees from a sniper's bullet, finding himself hurled into a mysterious, fantastic world of wizards, dragons, and unicorns. There he allies himself with the blond-haired, blue-eyed Lenelli, and Velona, their goddess in human form, offering them his knowledge of warfare and weaponry in their genocidal struggle against a race of diminutive, swarthy barbarians known as Grenye. But soon, the savagery of the Lenelli begins to eat at Hasso Pemsel's soul, causing him to question everything he has long believed about race and Reich, right and wrong, Übermenschen and Untermenschen. Hasso Pemsel will learn the difference

between following orders... and following his conscience. *The Great War* Diversion Books The classic fantasy series from "one of alternative-history's stalwarts" (The New Yorker) continues in the adventure of a lifetime. Harry Turtledove's brilliant re-imaginings of major world events have thrilled fans for decades, but he first captured readers' attention with the Videssos Cycle, a unique blend of fantasy and speculative history. In this two-book volume, a Roman legion, thrown into another world, fights its way through sorcery, intrigue, and epic conflict. **THE LEGION OF VIDESSIONS** Since the legion was mysteriously transported to this magical realm, Roman military tribune Marcus Aemilius Scaurus has valiantly served the rulers of the war-torn city of Videssos. However, Fortune is a fickle goddess. Returning in triumph after defeating a well-entrenched army of rebel mercenaries, Marcus is betrayed by a friend, seized as a traitor, and dragged before the Emperor. Only one person may be able to save him: the Emperor's niece. But consorting with her could lead to exile . . . or worse. **SWORDS OF THE LEGION** As prisoner of the Emperor, Marcus Scaurus is in a desperate situation. He stands condemned for treason, unless he can reclaim a rebel province from a fanatic usurper--without the aid of his Romans. Now, with just one centurion by his side, Marcus sets out to once again do the impossible. Soon the fates conspire against the men, driving them toward the torture chambers of an evil, deathless wizard-prince. But an audacious last hope rallies behind them--the soldiers of the legion are on the march. *Surrounded by Enemies* Del Rey A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had

not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory--and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler's War captures the beginning of a very different World War II--with a very different fate for our world today. **BONUS:** This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East. The Disunited States of America* Library of Alexandria What if V-E Day hadn't ended World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. In this imagined world, Nazi forces launch a guerrilla war, using the quick and dirty tactics of terrorism to overturn what seemed to be a decisive victory. Suddenly the Allies--especially the United States--are mired in a long, seemingly unwinnable conflict while battling an invisible, unrelenting enemy. *The United States of Atlantis* Penguin The date is 1854. The place is the Australia. Men driven beyond endurance take arms against British redcoats. The stockade falls. But from the

ashes will rise a new revolution--a revolution powered by the sun. And this one will not fail. **Conan The Liberator** Del Rey A new Conan adventure--Conan of Venarium--from one of today's most popular writers of fantasy and science fiction, Harry Turtledove! For decades, millions of readers have thrilled to the adventures of Conan, the barbarian adventurer invented by Robert E. Howard and further chronicled by other fantasy greats, including such notables as L. Sprague de Camp, Poul Anderson, and Robert Jordan. Now Harry Turtledove, one of today's most popular writers of fantasy and SF, contributes a novel to the Conan saga--a tale of Conan in his youth, in the year or so before he becomes the wandering adventurer we know from the tales of Howard and others. On the verge of adulthood, he lives in a Cimmerian hamlet, caring for his ailing mother, working in his father's smithy, and casting his eye on the weaver's daughter next door. Then war comes: an invasion by the Aquilonian Empire. Conan burns to join the fight, but he's deemed too young. Then, from the border country, comes an unbelievable report: The Aquilonians have smashed the Cimmerian defending forces, and can rule as they please. Soon their heavily garrisoned forts dot the countryside. Their settlers follow after, carving homesteads out of other men's land. Every Cimmerian longs to drive the intruders out with fire and sword, but they must stay their hands, for the Aquilonians have promised savage reprisals. Then, intolerably, the Aquilonian commander takes a wholly dishonorable interest in the weaver's daughter -- and he's not a man to wait, or even ask permission. It's not a

The Lost Continent: The Story of Atlantis is a fantasy novel by C. J. Cutcliffe Hyne. It is considered one of the classic fictional retellings of the story of the drowning of Atlantis, combining elements of the myth told by Plato with the earlier Greek myth concerning the survival of a universal flood and restoration of the human race by Deucalion.
