A Guide to Cultural Landscape Reports Passbooks
The natural resources of the Earth are indispensable for the survival of humans, plants, and animals and for the state of biodiversity. The way they are managed determines the extent to which they will be preserved for future generations. Climate change underscores the need for the proper use of natural resources. This book brings together reviews of literature and the results of research studies on the status and management of soil, water, plant, and wildlife resources, especially as they relate to the biological sciences, in Africa, Asia, Europe, North America, and Latin America. It covers work on classification and inventories, impacts of anthropogenic activities, and exploitation and conservation. The book will be of interest to scientists and practitioners of natural resource management worldwide.

Tallinn Manual 2.0 expands on the highly influential first edition by extending its coverage of the international law governing cyber operations to peacetime legal regimes.

The product of a three-year follow-on project by a new group of twenty renowned international law experts, it addresses such topics as sovereignty, state responsibility, human rights, and the law of air, space, and the sea. Tallinn Manual 2.0 identifies 154 'black letter' rules governing cyber operations and provides extensive commentary on each rule. Although Tallinn Manual 2.0 represents the views of the experts in their personal capacity, the project benefitted from the unofficial input of many states and over fifty peer reviewers.

Policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission. A key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system. An effective internal control system helps an entity adapt to shifting environments, evolving demands, changing risks, and new priorities. As programs change and entities strive to improve operational processes and implement new technology, management continually evaluates its internal control system so that it is effective and updated when necessary. Section 3512 (c) and (d) of Title 31 of the United States Code (commonly known as the Federal Managers' Financial Integrity Act (FMFIA)) requires the Comptroller General to issue standards for internal control in the federal government.

General Records Schedules Lulu.com Examines the effectiveness of Fed. first-level supervisors and how well agencies select, develop, and manage them. First-line supervisors, as the nexus between gov't policy and action, are critical to productivity, employee engagement, and workplace fairness. Supervisory positions -- even at the first level -- have distinctive responsibilities and skill requirements. Therefore, it is essential that agencies have valid selection criteria and processes, comprehensive training programs, good communication and support networks, and sound accountability mechanisms for their first-level supervisors. In addition, this report recommends specific measures to improve supervisors management and performance. Charts and tables.

How to Get a Job in the Federal Government

This report identifies how the U.S. government can improve its ability to recruit and hire entry-level professional and administrative employees. To prepare for a potential retirement wave, Federal agencies will likely increase their entry-level hiring to rebuild the pipeline from entry-level positions through the journey-level and beyond. Given this context, it is important to assess how well the Federal hiring process is working, particularly in terms of the Government's ability to recruit entry-

level new hires from all segments of society and select employees on the basis of merit after fair and open competition. The recommendations in this report focus on how to improve entry-level hiring efforts while also protecting merit. Illustrations.
