What will you do to promote multilingual learners' equity? Our nation's moment of reckoning with the deficit view of multilingual learners has arrived. The COVID-19 pandemic has further exposed and exacerbated long-standing inequities that stand in the way of MLs' access to effective instruction. Recent events have also caused us to reflect on our place as educators within the intersection of race and language. In this innovative book, Sydney Snyder and Diane Staehr Fenner share practical,

---

replicable ways you can draw from students' strengths and promote multilingual learners' success within and beyond your own classroom walls. In this book you'll find

- Practical and printable, research-based tools that guide you on how to implement culturally responsive teaching in your context
- Case studies and reflection exercises to help identify implicit bias in your work and mitigate deficit-based thinking
- Authentic classroom video clips in each chapter to show you what culturally responsive teaching actually looks like in practice
- Hand-drawn sketch note graphics that spotlight key concepts, reinforce central themes, and engage you with eye-catching and memorable illustrations

There is no time like the present for you to reflect on your role in culturally responsive teaching and use new tools to build an even stronger school community that is inclusive of MLs. No matter your role or where you are in your journey, you can confront injustice by taking action steps to develop a climate in which all students'

backgrounds, experiences, and cultures are honored and educators, families, and communities work collaboratively to help MLs thrive. We owe it to our students. On-demand book study-Available now! Authors, Snyder and Staehr Fenner have created an on-demand LMS book study for readers of *Culturally Responsive Teaching for Multilingual Learners: Tools for Equity* available now from their company SupportEd. The self-paced book study works around your schedule and when you're done, you'll earn a certificate for 20 hours of PD. SupportEd can also customize the book study for specific district timelines, cohorts and/or needs upon request.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Provide students a clear view of what success looks like for any process, task, or product. What does success look like for your students? How will they know if they have learned? This essential component of teaching and learning can be difficult to articulate but is vital to achievement for both teachers and students. The Success Criteria Playbook catapults teachers beyond learning

---

intentions to define clearly what success looks like for every student—whether face-to-face or in a remote learning environment. Designed to be used collaboratively in grade-level, subject area teams—or even on your own—the step-by-step playbook expands teacher understanding of how success criteria can be utilized to maximize student learning and better engage learners in monitoring and evaluating their own progress. Each module is designed to support the creation and immediate implementation of high-quality, high impact success criteria and includes:

- Templates that allow for guided and independent study for teachers.
- Extensive STEM-focused examples from across the K-12 STEM curriculum to guide teacher learning and practice.
- Examples of success criteria applied across learning domains and grades, including high school content, skills, practices, dispositions, and understandings. Ensure equity of access to learning and opportunity for all students by designing and employing high-quality, high-impact success

criteria that connect learners to a shared understanding of what success looks like for any given learning intention.
