Oracle 11i General Ledger Implementation

Ledger: The ledger is a major concept change in Release 12 which replaces the 11i concept of a set of books. the Ledger represents an accounting representation for one or more legal entities or for a business need such as consolidation or management reporting. The new change provides the flexibility for the defining the model in a easy and efficient way for the setup of the legal entities and accounting representations in Release 12.

Oracle General Ledger User's Guide

General Ledger Overview : Oracle General Ledger is a
comprehensive financial management solution that enables
you to: • Record and Review Accounting Information •
Import data from subsidiary ledgers, or enter journals to

record actual or budget transactions directly into Oracle General Ledger.

Open the accounting period in your parent ledger that you want to use for your consolidation. See: Opening and Closing Accounting Periods, Oracle General Ledger Implementation Guide. If you used consolidation sets, choose the State Controller's Transfer Set button to transfer consolidation data from multiple subsidiaries at the same time.
