Oracle Bpel Process Manager Developer Guide 11g

Oracle BPEL Process Manager. BPEL is the standard for assembling a set of discrete services into an end-to-end process flow, radically reducing the cost and complexity of process integration initiatives. Oracle BPEL Process Manager offers a comprehensive and easy-to-use infrastructure for creating, deploying and managing BPEL business processes.

Each BPEL process you deploy to the Oracle BPEL Process Manager requires a process descriptor. This process descriptor is not covered by the BPEL standard and is specific to the BPEL server. The deployment process descriptor is the only part of the implementation of a process on a given platform

that must be re-written to run the process on a different BPEL engine.
