[SOLVED] Screen resolution within VBox VM too low - CentOS
Whenever I try to resize the display by resizing the VirtualBox window from the default 640x480, the display enters into a perpetual "redraw display" loop, while staying at 640x480 resolution (although in Control Panel, it shows the amended display resolution). I am completely unable to find the cause of this, or a workaround.

virtualbox.org • View topic - 4K resolution in Windows 10 ...

When guest systems with the Guest Additions installed are started using the graphical frontend, the normal Oracle VM VirtualBox application, they will not be allowed to use screen resolutions greater than the host's screen size unless the user manually resizes them by dragging the window,

switching to full screen or seamless mode or sending a video mode hint using VBoxManage. This behavior is what most users will want, but if you have different needs, you can change it by issuing one of the ...
