The author, a licensed Professional Engineer, has family roots in the Detroit area and has also been employed in an engineering capacity by all "Big Three" automakers; GM, Ford, & Chrysler. He has often wondered how the auto industry got its beginning in such a place as Detroit, Michigan, way off the beaten path, in an isolated glove-shaped piece of land thrust up between two lakes, where weather can be severe. Ohio and Indiana, who were also very active in the creation of the auto industry, are in the same general area of the country as Michigan and share the same climate. Why would anyone favor this three state area? One would think that other parts of the country would be more conducive to the formation of such an important part of the history of this nation. After all, Michigan, Ohio, and Indiana were not members of the original 13 states and therefore have to be considered less developed territories than the original thirteen states around the turn of the 19th century when the American Gasoline-powered automobile was invented. Read how the author has searched for the answers to these somewhat perplexing questions on why Detroit became the "Motor City".

We've all been there. You call an Uber. The app says it has arrived, but . . . where is it? Where is your Uber? Are You My Uber? is a 21st Century parody of the 1960 P.D. Eastman children's book Are You My Mother? A man steps off the midnight bus at Port Authority. His name? Unknown. His goal? To find his Uber, an elusive Ford Taurus. Lost and alone in a new city, he steels himself and begins by passing right by the very object of his search. Hilarity ensues: the man proceeds to knock at the doors

of an off-duty cab, a helicopter, a halal cart, and other vehicles increasing in their absurdity, willing to try anything to find his Uber. Paired with illustrations by Hilary Fitzgerald Campbell, co-illustrator of Feminist Fight Club, Sarah Dooley's hilarious imagined story is as ridiculous as it is relatable.

THE INSIDE STORY OF THE EPIC TURNAROUND OF FORD MOTOR COMPANY UNDER THE LEADERSHIP OF CEO ALAN MULALLY. At the end of 2008, Ford Motor Company was just months away from running out of cash. With the auto industry careening toward ruin, Congress offered all three Detroit automakers a bailout. General Motors and Chrysler grabbed the taxpayer lifeline, but Ford decided to save itself. Under the leadership of charismatic CEO Alan Mulally, Ford had already put together a bold plan to unify its divided global operations, transform its lackluster product lineup, and overcome a dysfunctional culture of infighting, backstabbing, and excuses. It was an extraordinary risk, but it was the only way the Ford family—America's last great industrial dynasty—could hold on to their company. Mulally and his team pulled off one of the greatest comebacks in business history. As the rest

of Detroit collapsed, Ford went from the brink of bankruptcy to being the most profitable automaker in the world. American Icon is the compelling, behind-the-scenes account of that epic turnaround. On the verge of collapse, Ford went outside the auto industry and recruited Mulally—the man who had already saved Boeing from the deathblow of 9/11—to lead a sweeping restructuring of a company that had been unable to overcome decades of mismanagement and denial. Mulally applied the principles he developed at Boeing to streamline Ford's inefficient operations, force its fractious executives to work together as a team, and spark a product renaissance in Dearborn. He also convinced the United Auto Workers to join his fight for the soul of American manufacturing. Bryce Hoffman reveals the untold story of the covert meetings with UAW leaders that led to a game-changing contract, Bill Ford's battle to hold the Ford family together when many were ready to cash in their stock and write off the company, and the secret alliance with Toyota and Honda that helped prop up the American automotive supply base. In one of the great management narratives of our time, Hoffman puts the reader inside the boardroom as Mulally uses his celebrated Business Plan Review meetings to drive change and force Ford to deal with the painful realities of the American auto industry. Hoffman was granted unprecedented access to Ford's top executives and top-secret company documents. He spent countless hours with Alan Mulally, Bill Ford, the Ford family, former executives, labor leaders, and company directors. In the bestselling tradition of Too Big to Fail and The Big Short, American Icon is

This book defines and clarifies the extraordinary challenges leaders in the health care industry are facing and will continue to confront in the coming years. This text advances a model of leadership that enables executives to steer their organizations through the maze of uncertainty created by legislative, economic, demographic, clinical, information management, and political change. The authors skillfully demonstrate how the transformational demands of leadership can be effectively integrated with the transactional and operational necessities of managing. A Competing Values Framework guides leaders toward an aptitude for assimilating vision development, strategic planning, and operational management. The resource is organized into four distinct sections: competition and commitment; communication and collaboration; community and

credibility; as well as coordination and compliance.
